

DMD # 62836

**GW4064, an agonist of farnesoid X receptor (FXR), represses CYP3A4 expression in human hepatocytes by inducing small heterodimer partner (SHP) expression**

Shu Zhang, Xian Pan, and Hyunyoung Jeong

*Drug Metabolism and Disposition*

**Table. S1. Sequences of oligonucleotides used in qRT-PCR**

<b>Gene</b>	<b>Forward primer</b>	<b>Reverse primer</b>
