SUPPLEMENTARY TABLE 2

## Current Procedural Terminology codes used in defining venous thromboembolism

CPT codes	Description
Laboratory services	
85210	Clotting; prothrombin, specific
85220	Clotting; factor V factor
85302	Clotting inhibitors; protein C, antigen
85378-85380	Fiber degradation products, D-dimer
85610	Prothrombin time
Imaging and other services	
75741-75746	Angiography, pulmonary
78457-78458	Venous thrombosis imaging
78596	Pulmonary quantitative function study
99363-99364	Anticoagulant management for outpatient taking warfarin
