

	PS-Act Int	DockRank	ClusPro	Lowest Energy	Center Energy
<b>Average Hit Rate</b>	0.49	0.38	0.22	0.29	0.15

**Figure S5. Hit Rates in top docked conformations ranked by DockRank and ClusPro scoring functions on the ClusPro2-BM3\_31 decoy set.** The average Hit Rates of scoring functions over all cases are shown in the table. The Hit Rates of DockRank’s scoring function supplied with actual partner-specific interface residues (labeled as “PS-Act Int”, stems) are plotted to define the upper bound of the performance of DockRank’s scoring function.
