

### Supplemental Figure S1

**SUPPLEMENTAL FIGURE S1. STAT3C-mediated hyporesponsiveness is independent of IL-10 production.** Proliferation of control-vector or STAT3C-transduced CD4<sup>+</sup> T-cells in response to anti-CD3/anti-CD28 stimulation in the absence or presence of an IL-10 neutralizing antibody (20 µg/mL). Mean proliferation + SD from one representative donor (n=3) are shown; n.s. not significant, \*\*\* p<0.001
