

Flag-FBW7(WT)	+	+	-	-
Flag-FBW7(T205A)	-	-	+	+
MG132	-	+	-	+

Supplementary information, Figure S5 (related to Figure 6) 293T cells were transfected with Flag-WT-FBW7 and Flag-T205A-FBW7 constructs.

Thirty hours post-transfection, cells were pretreated with the proteasome inhibitor MG132 overnight before harvesting. *In vivo* FBW7 phosphorylation status was examined by immunoblot analysis after immunoprecipitates (IP).
