Q14. How does your facility use the data that is collected through TIER.net?

information systems

interviewer Script: we're just about done; there are just a few final questions.
Q17. What would you change about the TIER.net system?
Q18. Do you have any other issues you would like to share on TIER.net?

**Interviewer Script:** Thank you very much for your time and opinions. The results of this study should be available soon. Prior to finalisation, a draft report will be made available for review and feedback.
