

Rv #	Gene	FC	Description	Process
Rv2864c*		2.6	Penicillin-binding lipoprotein Possible transpeptidase PbpD	Cell wall biosynthesis
Rv0996*		2.6	Conserved membrane protein	
Rv3074		2.5	Conserved hypothetical protein Ortholog of HNH nuclease	DNA replication/repair
Rv1698*	<i>mctB</i>	2.4	Outer membrane channel	Transport
Rv3209*		2.2	Conserved proline & threonine rich protein Ortholog of MmpS3 membrane protein	
Rv1378c		2.2	Conserved hypothetical protein Ortholog of HNH nuclease	DNA replication/repair
Rv2164c*		2.2	Conserved proline rich membrane protein Possible cell division protein FtsL	Cell division
Rv2748c*	<i>ftsK</i>	2.1	Cell division protein	Cell division
Rv2894c*	<i>xerC</i>	2.1	Tyrosine integrase/recombinase	Cell division
Rv3370	<i>dnaE2</i>	2.0	DNA polymerase III alpha chain dnaE2	DNA replication/repair
