

Figure S4 Sequence of *Bombyx* hsp90^{P2.9k} fragment. The boxed region shows three putative HSE elements. The transcribed region of hsp90 is written in lower case. The hsp90^{P2.0k} sequence is shown in the italic character. The underlined region shows the genomic fragment used for hsp90-GAL4 transgenic strain in Uchino $et\ al.$ (2006).
