Hungary							
<p>Hungarian PI-IC version 1 (14 February 2002) was approved together with 1st submitted trial documents (included Protocol) by Local Ethics Committees.</p> <p>2nd version of PI-IC (dated 09 Nov 2004) had been submitted to OGYI and to the LECs in January 2005. OGYI had requested for further modification in it, so a modified 2nd version of PI-IC (dated 30 March 2005) had been submitted to OGYI in April 2005 and had been later approved by them. This latter version was sent to all LECs again. That is both versions were submitted to LECs.</p> <p>The LEC approvals are available either for version dated 09 Nov 2004 or for version dated 30 Mar 2005 depending on the date of the approval of the LEC.</p> <p>From the 15th of September 2005 new local regulation became effective. See Decree 35/2005 (VIII.26.) of the Minister of Health (filed in the ISF section 12). According to this local regulation Protocol amendments and change of other study related documents have to be approved by the Regulatory Authority and Central Ethics Committee. Requests for change of any study related documents have to be submitted only to the Regulatory Authority who forwards documents to the Central Ethics Committee if they decide it is required. Central Ethic Committee issues its opinion only for the Regulatory Authority and not directly for the sponsor or investigators.</p> <p>In case of Amendment 3 RA issued its approval without CEC review.</p> <p>Central Ethics Committee in Hungary was: Egészségügyi Tudományos Tanács, Klinikai Farmakológiai Etikai Bizottsága, 1051 Budapes Arany J. u. 6-8.</p>

<p>In section Informed Consent approval I gave a comment that it applies to PIC version 2 dated 09.11.2004 as PIC version 1 dated 14.02.2002 was approved together with main protocol approval - I also added that comment in the section. The last comment is required for Am 2 approval - that date applies also to the PIC for long term follow-up approval, which was also applicable in Poland. The site 2403 was closed soon after the opening so that they have only main protocol approval.</p>
