

A. Linear furanocoumarins

Demethylsuberosin

(+)-Marmesin

5-hydroxymarmesin

Psoralen

Bergaptol

Xanthotoxol

Bergapten

Xanthotoxin

Isopimpinelline

5-hydroxyxanthotoxin

8-hydroxybergapten

5,8-dihydroxypsoralen

Cnidilin

Phellopterin

Imperatorine

Isoimperatorine

Bergamottine

8-methylpsoralen

B. Angular furanocoumarins

Osthenol

(+)-Columbianetin

Angelicin

5,6-dihydroxyangelicin

Pimpinelline

Isobergaptol

Sphondinol

Sphondin

Isobergapten

6-isopentenylxyisobergaptol

Heratomine

Lanatine

C. Coumarins

D. Smaller molecules
