

SUPPLEMENTARY TABLE S4. ADJUSTED ODDS RATIOS FOR FIBROIDS ACCORDING TO SELF-REPORTED HISTORY OF NUMBER OF DIFFERENT REPRODUCTIVE TRACT INFECTIONS AND NUMBER OF DIAGNOSES FOR EACH INFECTION

<i>Reproductive tract infections^a</i>	<i>Fibroids</i>		<i>Age-adjusted</i> <i>OR (95% CI)</i>	<i>Multivariable-adjusted^b</i> <i>OR (95% CI)</i>
	<i>Yes</i> (N = 363) <i>n (%)^a</i>	<i>No</i> (N = 1,293) <i>n (%)</i>		
Number of different RTIs reported				
0	101 (28)	381 (30)	1 (ref)	1 (ref)
1	103 (28)	350 (27)	1.08 (0.79–1.49)	1.19 (0.86–1.64)
2	85 (23)	238 (18)	1.32 (0.94–1.85)	1.41 (0.99–2.01)
3+	74 (20)	320 (25)	0.82 (0.58–1.15)	0.91 (0.63–1.30)
Missing		4		
PID diagnoses (<i>n</i>)				
0	329 (91)	1,164 (90)	1 (ref)	1 (ref)
1	28 (8)	104 (8)	0.94 (0.60–1.47)	0.98 (0.62–1.55)
2+	6 (2)	24 (2)	0.75 (0.30–1.88)	0.79 (0.31–2.02)
Missing		1		
Chlamydia diagnoses (<i>n</i>)				
0	238 (66)	788 (61)	1 (ref)	1 (ref)
1	80 (22)	339 (26)	0.82 (0.61–1.09)	0.86 (0.64–1.16)
2+	45 (12)	164 (13)	0.92 (0.63–1.32)	1.02 (0.70–1.50)
Missing		2		
Bacterial vaginosis diagnoses (<i>n</i>)				
0	216 (60)	815 (63)	1 (ref)	1 (ref)
1	50 (14)	164 (13)	1.22 (0.85–1.74)	1.23 (0.85–1.78)
2+	97 (27)	313 (24)	1.10 (0.83–1.45)	1.11 (0.83–1.49)
Missing		1		
Trichomonas diagnoses (<i>n</i>)				
0	247 (68)	878 (68)	1 (ref)	1 (ref)
1	76 (21)	276 (21)	0.91 (0.68–1.23)	0.93 (0.68–1.27)
2+	40 (11)	138 (11)	0.88 (0.60–1.30)	0.90 (0.60–1.35)
Missing		1		
Gonorrhea diagnoses (<i>n</i>)				
0	301 (83)	1,031 (78)	1 (ref)	1 (ref)
1	41 (11)	190 (15)	0.74 (0.51–1.07)	0.81 (0.56–1.19)
2+	21 (6)	71 (6)	1.01 (0.61–1.69)	1.21 (0.71–2.04)
Missing		1		

Any “prefer not to answer” response was coded as missing.

^aGenital herpes was not included because the number of times diagnosed was not applicable, and genital warts was not included because only 9 participants were diagnosed more than once.

^bLogistic regression model adjusted for age (continuous), education, body mass index, alcohol, menarche, parity, and Depo-Provera use. CI, confidence interval; OR, odds ratio.
