

Figure 5. Panel A. Levels of Coq biosynthetic proteins

(A) Kidney western blot of COQ7 and VDAC1 as a loading control.

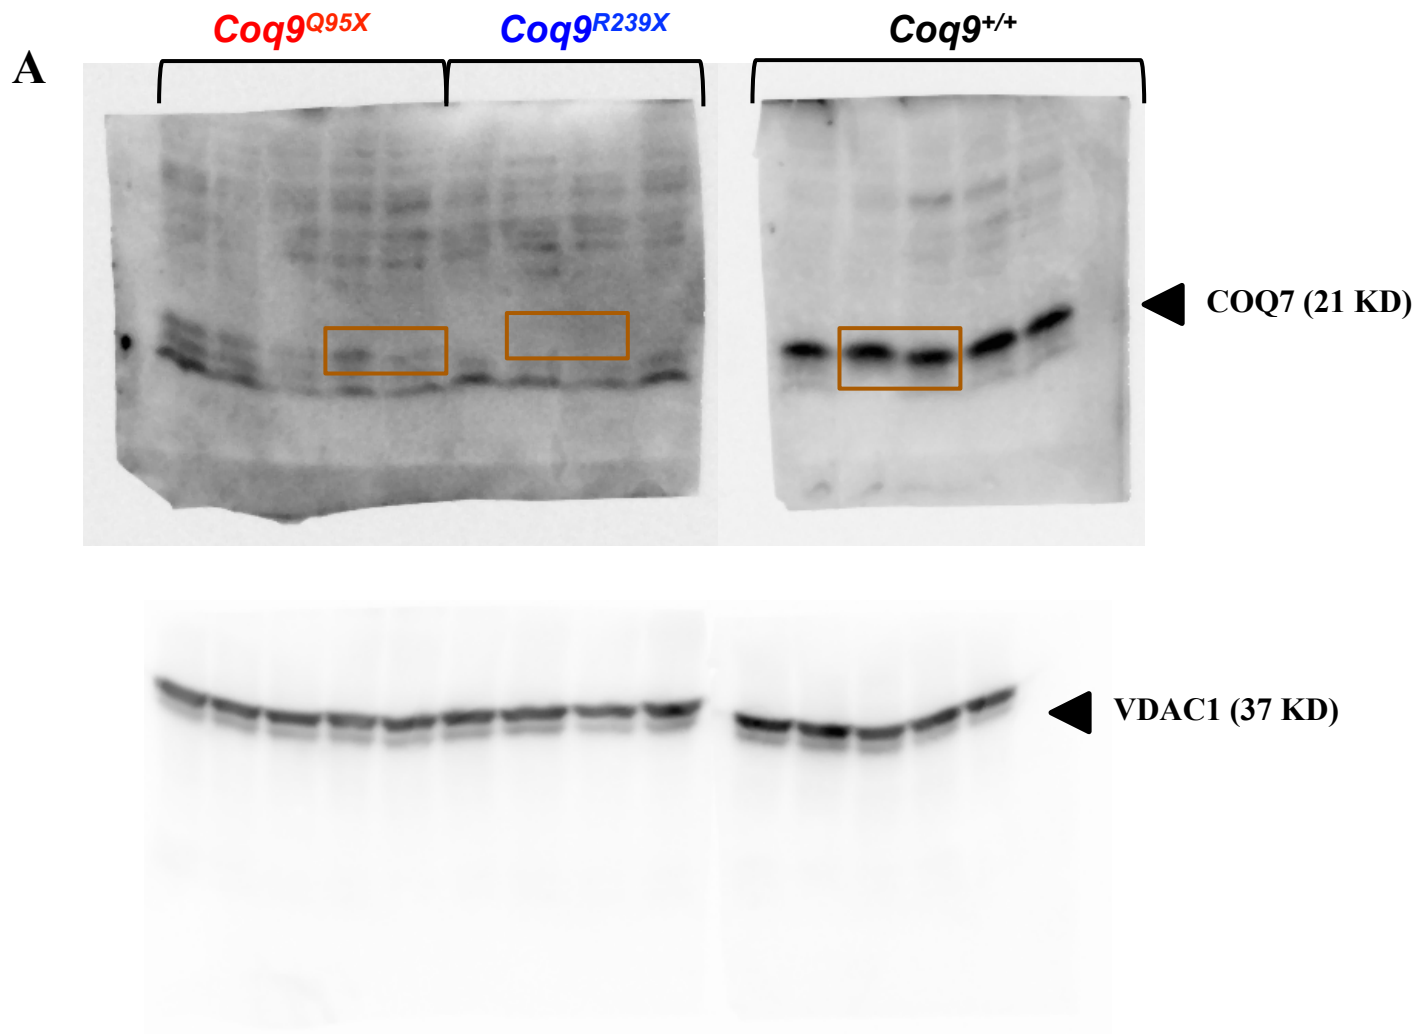

Figure 5. Panel B. Levels of Coq biosynthetic proteins

(B) Kidney western blot of ADCK3.

Figure 5. Panel C. Levels of Coq biosynthetic proteins

(C) Kidney western blot of COQ5.

Figure 5. Panel D. Levels of Coq biosynthetic proteins

(D) Kidney western blot of COQ6.

Figure 5. Panel E. Levels of Coq biosynthetic proteins

(E) *T. surae* western blot of COQ7.

E

Figure 5. Panel F. Levels of Coq biosynthetic proteins

(F) *T. surae* western blot of ADCK3.

Figure 5. Panel G. Levels of Coq biosynthetic proteins

(G) *T. surae* western blot of COQ5.

Figure 5. Panel H. Levels of Coq biosynthetic proteins

(H) *T. surae* western blot of COQ6.
