

SUPPLEMENTAL APPENDIX A: 240 STUDIES
ASSESSED FOR INCLUSION

The 72 studies excluded from this review are in *italics* and the 31 studies assessed as part of the Cochrane Review are in **bold** (note: Paik 1974 was included in the Cochrane Review as two separate studies, bringing the total number of assessed studies to 32)

1. Abraham AC, Samuels RD, 1944. Epidemiology of malaria in the Nizamsagar Ayacut area, Nizamabad District, Hyderabad State. *J Malar Inst India* 5: 305–318.
2. Afridi MK, Rahim A, 1959. Further observation on the interruption of malaria transmission with single dose of pyrimethamine (daraprim). *Riv Parassitol* 20: 229–242.
3. Ahorlu CK, Koram KA, Seake-Kwawu A, Weiss MG, 2011. Two-year evaluation of Intermittent Preventive Treatment for Children (IPTc) combined with timely home treatment for malaria control in Ghana. *Malar J* 10: 127.
4. Ahorlu CK, Koram KA, Seakey AK, Weiss MG, 2009. Effectiveness of combined intermittent preventive treatment for children and timely home treatment for malaria control. *Malar J* 8: 292.
5. Aikins MK, Pickering H, Alonso PL, D'Alessandro U, Lindsay SW, Todd J, Greenwood BM, 1993. A malaria control trial using insecticide-treated bed nets and targeted chemoprophylaxis in a rural area of The Gambia, West Africa: 4. Perceptions of the causes of malaria and of its treatment and prevention in the study area. *Trans R Soc Trop Med Hyg* 87: 25–30.
6. Alicata JE, Dajani SW, 1955. Observation of pyrimethamine (daraprim) as a suppressant of malaria in a small village in Jordan. *Am J Trop Med Hyg* 4: 1006–1008.
7. Aliev S, Saporova N, 2001. The current malaria situation and its control in Tajikistan. *Med Parazitol (Mosk)* 1: 35–37.
8. Aliev SP, 2000. Malaria in the Republic of Tadjikistan. *Med Parazitol (Mosk)* 2: 27–29.
9. Allen SJ, Otoo LN, Cooke GA, O'Donnell A, Greenwood BM, 1990. Sensitivity of *Plasmodium falciparum* to Maloprim after five years of targeted chemoprophylaxis in a rural area of The Gambia. *Trans R Soc Trop Med Hyg* 84: 666–667.
10. Alonso PL, Lindsay SW, Armstrong Schellenberg JRM, Keita K, Gomez P, Shenton FC, Hill AG, David PH, Fegan G, Cham K, Greenwood BM, 1993. A malaria control trial using insecticide-treated bed nets and targeted chemoprophylaxis in a rural area of The Gambia, West Africa: 6. The impact of the interventions on mortality and morbidity from malaria. *Trans R Soc Trop Med Hyg* 87: 37–44.
11. Alonso PL, Lindsay SW, Armstrong Schellenberg JRM, Konteh M, Keita K, Marshall C, Phillips A, Cham K, Greenwood BM, 1993. A malaria control trial using insecticide-treated bed nets and targeted chemoprophylaxis in a rural area of The Gambia, West Africa: 5. Design and implementation of the trial. *Trans R Soc Trop Med Hyg* 87: 31–36.
12. Alving AS, Arnold J, Robinson DH, 1952. Mass therapy of sub-clinical vivax malaria with primaquine. *JAMA* 149: 1558–1562.
13. Amangeldiev KA, 2001. The current malaria situation in Turkmenistan. *Med Parazitol (Mosk)* 1: 37–39.
14. Archambeault CP, 1954. Mass antimalarial therapy in veterans returning from Korea. *JAMA* 154: 1411–1415.
15. Archibald HM, 1960. Field trials of mass administration of antimalarial drugs in northern Nigeria. *Bull World Health Org* 26: 1–11.
16. Archibald HM, Bruce-Chwatt LJ, 1956. Suppression of Malaria with pyrimethamine in Nigerian schoolchildren. *Bull World Health Organ* 15: 775–784.
17. Babione RW, 1966. Epidemiology of malaria eradication in central America: a study of technical problems. *Am J Public Health* 56: 76–90.
18. Banerjee R, 1949. The control of malaria in a rural area of West Bengal. *Indian J Malariol* 3: 371–386.
19. Barber MA, Rice JB, Brown JY, 1932. Malaria studies on the firestone rubber plantation in Liberia, West Africa. *Am J Hyg* 15: 601–633.
20. Barger B, Maiga H, Traore OB, Tekete M, Tembine I, Dara A, Traore ZI, Gantt S, Doumbo OK, Djimde AA, 2009. Intermittent preventive treatment using artemisinin-based combination therapy reduces malaria morbidity among school-aged children in Mali. *Trop Med Int Health* 14: 784–791.
21. Baukapur SN, Babu CJ, 1984. A focal outbreak of malaria in Valsad district, Gujarat state. *J Commun Dis* 16: 268–272.
22. Berberian DA, Dennis EW, 1948. Field experiments with chloroquine diphosphate. *Am J Trop Med* 28: 755–776.
23. Berny P, Nicolas L, 1936. Prophylaxis of malaria with quinacrine and rhodoquine in French Guiana. *Bull Soc Pathol Exot* 29: 870–872.
24. Bloch M, 1982. Teachings of the antimalarial campaign in El Salvador, central America. *Rev Inst Invest Med* 11: 119–124.
25. Bojang K, Akor F, Bittaye O, Conway D, Bottomley C, Milligan P, Greenwood B, 2010. A randomised trial to compare the safety, tolerability and efficacy of three drug combinations for intermittent preventive treatment in children. *PLoS One* 5: e11225.
26. Bojang KA, Sesay S, Sowe M, Conway D, Milligan P, Greenwood B, 2009. A study of intermittent preventive treatment and home based management of malaria in a rural area of The Gambia. *Am J Trop Med Hyg* 81: 145.
27. Bojang KA, Akor F, Conteh L, Webb E, Bittaye O, Conway DJ, Jasseh M, Wiseman V, Milligan PJ, Greenwood B, 2011. Two strategies for the delivery of IPTc in an area of seasonal malaria transmission in The Gambia: a randomised controlled trial. *PLoS Med* 8: e1000409.
28. Boulanger D, Sarr JB, Fillol F, Cisse B, Sokhna C, Riveau G, Bork Simondon K, Trape JF, Greenwood B, Simondon F, Remoue F, 2009. Intermittent preventive treatment of malaria decreases the anti-*Plasmodium* schizont antibody response of Senegalese children. *Trop Med Int Health* 14: 31.
29. Boulanger D, Sarr JB, Fillol F, Sokhna C, Cisse B, Schacht AM, Trape JF, Riveau G, Simondon F, Greenwood B, Remoue F, 2010. Immunological consequences of intermittent preventive treatment against malaria in Senegalese preschool children. *Malar J* 9: 363.
30. Brink CJH, 1958. Malaria control in the northern Transvaal. *S Afr Med J* 32: 800–809.
31. Bruce-Chwatt LJ, 1983. Mass drug administration for control of malaria. *Lancet* 2: 688.
32. Butler FA, 1943. Malaria control program on a South Pacific base. *U S Nav Med Bull* 41: 1603–1612.

SUPPLEMENTAL APPENDIX B: STUDY EXCLUSION/INCLUSION PROCESS

¹ Studies in which the primary focus was not MDA (e.g. historical program reviews that made mention of MDA, or community surveys done in conjunction with MDA)

² Multiple phases of the same study that were published individually

³ Treatment given at milestones rather than calendar dates (e.g. intermittent preventive treatment to infants coinciding with vaccination schedule, or to pregnant women coinciding with trimester check-ups)
