^a Codes based on a diagnosis treatment code generally used in the Dutch health care insurance system.

^b Codes based on CTG codes generally used in the Dutch health care system.

^c Codes sometimes used to register partial revisions.

Table 3. Number of participating hospitals in the LROI

Year	Hip arthroplasty n	Hip arthroplasty Proportion (%)	Knee arthroplasty n	Knee arthroplasty Proportion (%)
2007 ^a	59	64	63	68
2008 ^a	87	96	88	96

2012	95	100	100	100
2013	95	100	100	100

^a The period 2007–2009 was the run-in phase of the LROI and therefore not all hospitals were participating.

^a The total number of missing and incorrect values is not exactly the sum of the numbers per period for patient characteristics, since one patient can have undergone several surgeries, resulting in less missing or incorrect values for the patient characteristics.
