

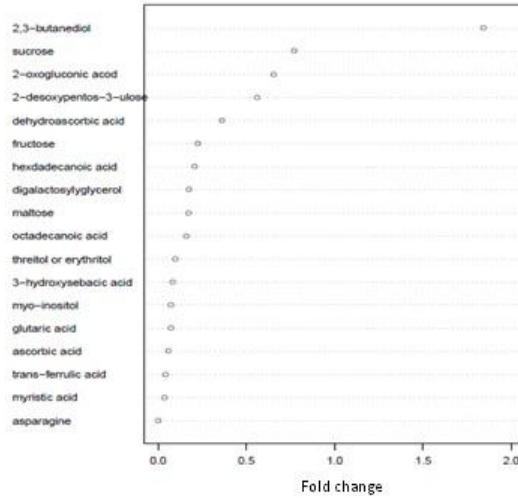

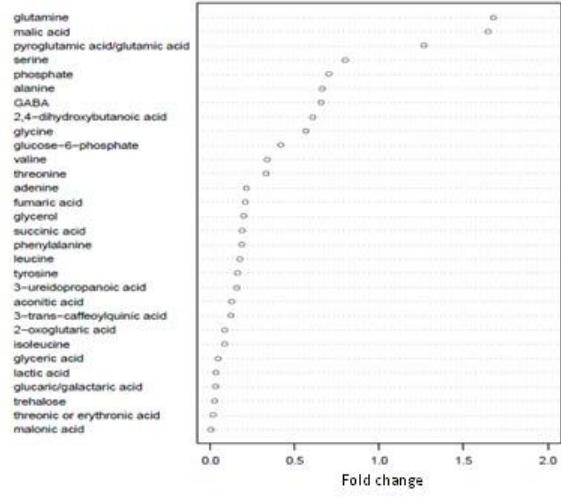

Figure S3

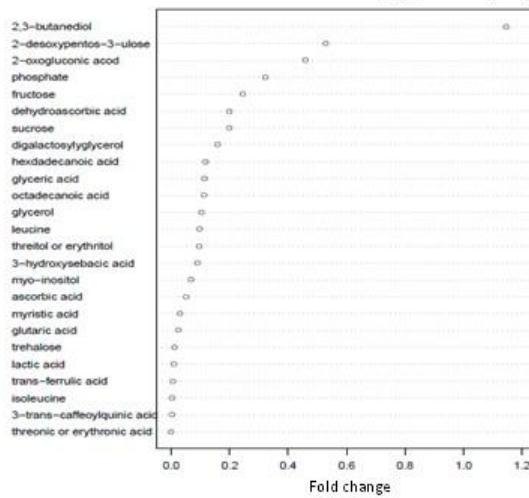

(a) Leaf tip metabolites elevated in contrast to leaf base under nitrate- condition. $-\log_2(\text{Base N-}/\text{Tip N-})$

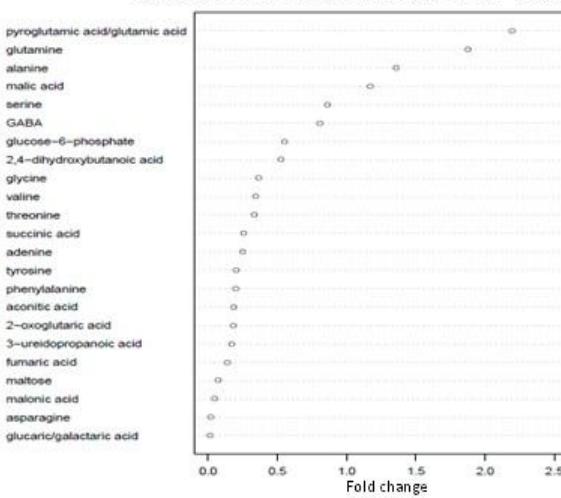

(b) Leaf base metabolites elevated in contrast to leaf tip under nitrate- condition. $\log_2(\text{Base N-}/\text{Tip N-})$

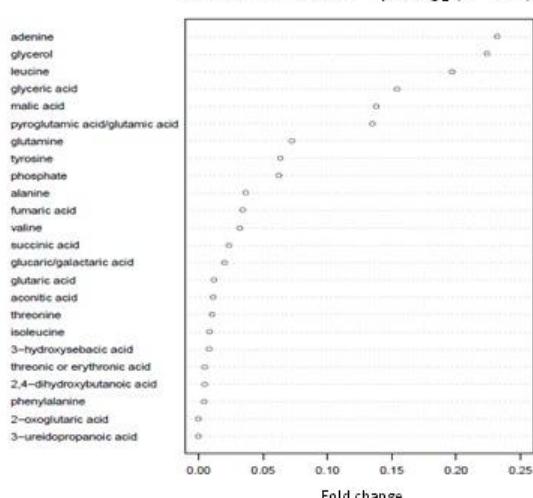

(c) Leaf tip metabolites elevated in contrast to leaf base under nitrate+ condition. $-\log_2(\text{Base N+}/\text{Tip N+})$

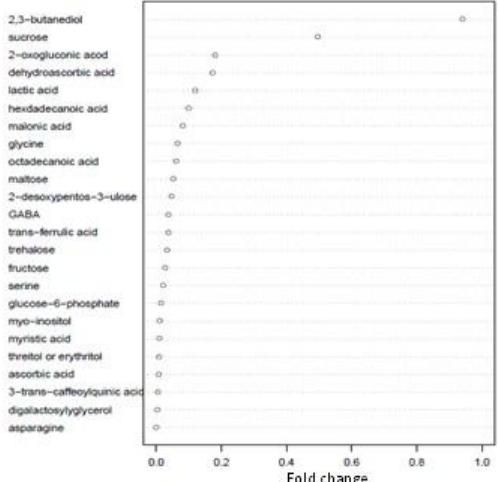

(d) Leaf base metabolites elevated in contrast to leaf tip under nitrate+ condition. $\log_2(\text{Base N+}/\text{Tip N+})$

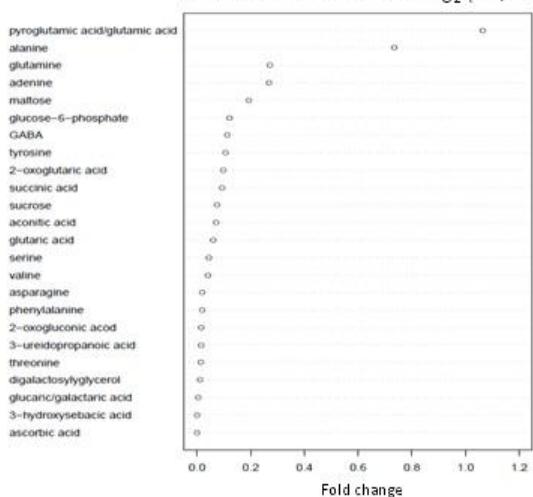

(e) Leaf tip metabolites elevated under nitrate+ condition. Tip - $\log_2(\text{N-}/\text{N+})$

(f) Leaf tip metabolites elevated under nitrate- condition. Tip $\log_2(\text{N-}/\text{N+})$

(g) Leaf base metabolites elevated under nitrate+ condition. Base - $\log_2(\text{N-}/\text{N+})$

(h) Leaf base metabolites elevated under nitrate- condition. Base $\log_2(\text{N-}/\text{N+})$
