Supplementary Figure 3. miR-33a does not regulates Pim-1 expression in lung cancer cells. Western blotting and semi-quantitative analyses of Pim-1 (another target of miR-33a, *Oncogene* 2012, 31:918) protein expressions in NCI-H1299 and SPC-A-1cells were performed after transfections of miR-33a (A) and anti-miR-33a (B), respectively.
