

S2 Table: Median MAT titers of the 120 MAT positive sera samples

Serogroup	Number positive n (%)	MAT titer	Number of isolates obtained (n = 9)*
Autumnalis	14 (11.7)	1:2560	2
Australis	33 (27.5)	1:2560	1
Ballum	31 (25.8)	1:640	-
Grippotyphosa	15 (12.5)	1:640	-
Pomona	12 (10)	1:640	1
Canicola	8 (6.7)	1:160	4
Icterohaemorrhagiae	4 (3.3)	1:160	-
Javanica	3 (2.5)	1:160	1

* Indicate serogroup obtained by isolation was identical to the serogroup identified by MAT. Number of isolates obtained in the corresponding serogroups are given.
