

**Supplementary figure 2.** Differences between IVIg preparations in respect of four glycosylation features for IgG1 (A-D) and three features for IgG2/3 (E-G). Tested with ANOVA and a post-hoc Tukey Test.

Legend:

	P > 0.05
	P 0.05 - 0.01
	P 0.01 - 0.001
	P < 0.001

**A** IgG1 Galactosylation

IVIg preparation:	1A	1B	2A	2B	3	4	5	IVIg ctrl
