

Supplementary Figure 2 (Fig S-2):

A. The anti-androgen bicalutamide neither induces nor inhibits the expression of PD-L1 in human prostate cancer cell lines.

PD-L1 versus Isotype

B. The anti-androgen bicalutamide neither induces nor inhibits the expression of PD-L2 in human prostate cancer cell lines.

MFI = Mean Fluorescence Intensity

C. The anti-androgen Casodex neither induces nor inhibits the expression of MHCII in human prostate cancer cell lines.
