

Figure S5. Box and whiskers plots of FA (Fraction affected) values by combinatorial treatment of AZD6244-resistant (n=7, upper graph) and AZD6244-susceptible (n=14, lower graph) melanoma cell lines with the association of AZD6244, BEZ235 and TRAIL.

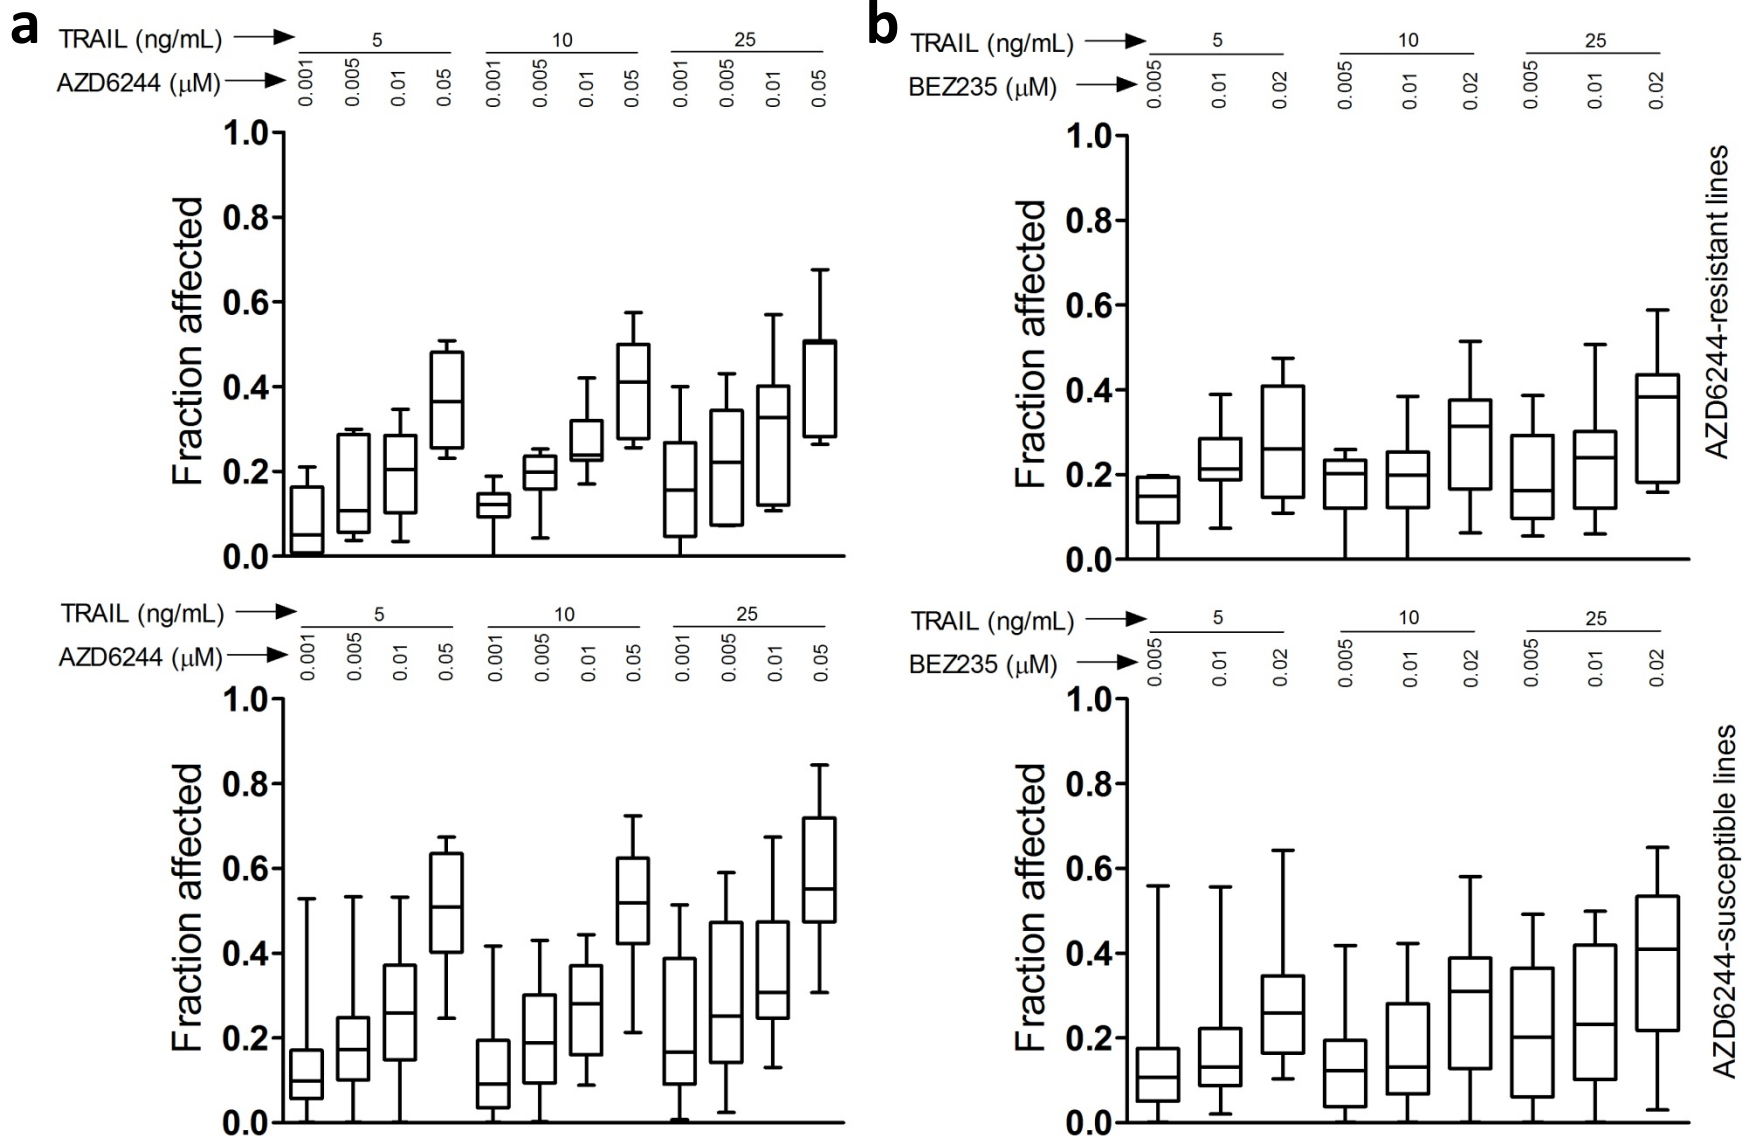

Figure S6. Box and whiskers plots of FA (Fraction affected) values by combinatorial treatment of AZD6244-resistant (n=7, upper graphs) and AZD6244-susceptible (n=14, lower graphs) melanoma cell lines with the association of AZD6244 and TRAIL (a) or of BEZ235 and TRAIL (b).
