

Additional file 1: Figure S1 - Mapping results of the three mappers with long (100bp) and short (50bp) reads

The bars show mapping rate and mapping accuracy of the three mappers with reads that contains 2% error (a and c for mapping rate and mapping accuracy, respectively) and 8% error (b and d for mapping rate and mapping accuracy, respectively). The dark purple bars represent results with short (50bp) reads and the light purple bars represent results with long (100bp) reads.
