

Epithelial cells
■ F-Actin
■ Cell nuclei
■ E-Cadherin

Endothelial cells
■ F-Actin
■ Cell nuclei
□ Von Willebrand factor

SUPPLEMENTARY FIG. S2. Laser scanning micrographs of epithelial cells (A549) stained for F-actin (green), cell nuclei (blue), and E-cadherin (pink) and endothelial cells (Eahy) stained for F-actin (green), cell nuclei (blue), and Von Willebrand factor (white). The images represent single xy layers.
