

S4 Table. Comparison of expected and measured melting point temperatures of the N-acetylthioureas.

N-acetylthiourea	Melting point (°C)	
	Expected ^a	Measured
TM-2-51	148 - 150	144 - 146
TM-2-88	154 - 156	152 - 155
TM-2-104	- ^b	- ^b

^a From reference [17].

^b Not measured, as the melting temperature is below room temperature.
