

Organs	Diseases	Binding
Bladder	Transitional cell carcinoma	++
	Normal	-
Breast	Invasive duct carcinoma	+++
	Normal	-
Colon	Adenocarcinoma	++
	Normal	-
Liver	Hepatocellular carcinoma	-
	Normal	-
Lung	Adenocarcinoma	++++
	Normal	-
Pancreas	Adenocarcinoma	+
	Normal	-
Prostate	Adenocarcinoma	++++
	Normal	-
Testis	Seminoma	-
	Normal	-
Thyroid	Papillary carcinoma	-
	Normal	-

Table S1. Binding potential of BPA to human cancer tissues.

Binding potentials of BPA to cancer and normal tissues in each organ were summarized and shown in stages from weak (+) to strong (++++).
