

Plot TFBS frequency

Plot frequency of matches to each PWM (point weighted matrix) at TSS. TSSs were grouped based on H3K4me3 peak breadth. Plot options:

- "Select H3K4me3 pattern": H3K4me3 peak patterns, means no detectable H3K4me3 higher than background.
- "Plot relative enrichment": Plot relative enrichment to if checked.

Select H3K4me3 pattern

Narrow
 Upstream
 Downstream
 Both
 Unclassified
 No H3K4me3

Plot relative enrichment
