

Supplementary Figure Legend

Supp. Figure S1

Wnt5a mRNA levels relative to L32 mRNA. Error bars denote standard deviation.

Supp. Figure S2

Inhibition of Ror2 protein expression with two shRNA constructs.

Supp. Figure S3

PORCN protein expression in UACC903 cells expressing control shRNA, PORCN shRNA #1, 2, 3. Tubulin is a loading control.

Supp. Figure S4

Collagen invasion assay of control and Mov10 shRNA expressing cells treated with the FASN inhibitor cerulenin.
