

## Gene expression profiling gut microbiota in different races of humans

Lei Chen, Yu-Hang Zhang, Tao Huang, and Yu-Dong Cai

**Table S1.** MaxRel feature list obtained by mRMR method

| Order | Feature name (gene ID) | MI value |
|-------|------------------------|----------|
| 1     | 5098122                | 0.328    |
| 2     | 2388211                | 0.256    |
| 3     | 5465406                | 0.253    |
| 4     | 3974863                | 0.252    |
