

**S7 Table. Kinetic knee features extracted from 26 papers, identified through systematic literature search**

	[1]	[2]	[3]	[4]	[5]	[6]	[7]	[8]	[9]	[10]	[11]	[12]	[13]	[14]	[15]	[16]	[17]	[18]	[19]	[20]	[21]	[22]	[23]	[24]	[25]	[26]		
Max. flexion moment in stance																												X
Max. extension moment in stance																												X
Max. power generation during stance												V																X
Max. power absorption during (terminal) stance												X																X

V = Significantly changed post-BTX-A treatment; X = Not significantly changed post-BTX-A treatment; Max. = Maximal.
