

Figure S1: N weighted - Random Intercept model: CFB 2 vs. CFB 6 weeks observed vs predicted values

Figure S2: Precision weighted - Random Intercept model: CFB 2 vs. CFB 6 weeks observed vs predicted values and standardized residuals

Figure S3: N weighted - Random Intercept model: CFB 2 vs. CFB 12 weeks observed vs predicted values and standardized residuals

Figure S4: Precision weighted - Random Intercept model: CFB 2 vs. CFB 12 weeks observed vs predicted values and standardized residuals

Figure S5: N weighted - Random Intercept model: CFB 6 vs. CFB 12 weeks observed vs predicted values and standardized residuals

Figure S6: Precision weighted - Random Intercept model: CFB 6 vs. CFB 12 weeks observed vs predicted values and standardized residuals
