

S1 Table. Patients with HL from four Altaian families (F38, F40, F53, F54) analyzed by WES.

Family and patient code	Hearing status	Year of birth	Sex	Ethnicity
F38:				
38-II-4	congenital profound sensorineural HL	1964	female	Altaian
38-II-5	congenital profound sensorineural HL	1966	male	Altaian
F40:				
40-II-1	profound mixed (sensorineural and conductive) HL	1960	female	Altaian
40-II-3	congenital profound sensorineural HL	1979	female	Altaian
F53:				
53-II-1	congenital profound sensorineural HL	1988	male	Altaian
F54:				
54-II-2	congenital profound sensorineural HL	1975	female	Altaian
54-II-5	congenital profound sensorineural HL	1982	female	Altaian

HL- hearing loss; WES – whole exome sequencing.
