

Supplementary Table S2. Chi-square analysis of seroprevalence (titer $\geq 1:20$) of AAV2 and AAV8 neutralizing antibodies in the MMA cohort compared with historical pediatric controls²⁸

	% Prevalence	NAb+		NAb-		n	df	χ^2	p
		Observed	Expected	Observed	Expected				
AAV2 NAb	22.1	0	5.75	26	20.25	26	1	7.383	0.0066
AAV8 NAb	15.7	1	5.34	33	28.66	34	1	4.184	0.0408

AAV, adeno-associated viral; MMA, methylmalonic acidemia; NAb, neutralizing antibody.
