

Additional File 1, Activated Sites as of February 19, 2016

As of February 19, 2016, 23 clinical sites in the United States and Europe had been activated into the NAVIGATE study. Additional site selection and activation is ongoing. The study protocol has prespecified up to 75 clinical sites in the United States, Europe, and Asia as needed to meet a final enrollment of up to 2,500 subjects. As of February 2016, study enrollment was progressing on schedule to reach the planned number of approximately 2,500 subjects; however, final enrollment and site numbers may change.
