B

Supplemental Figure 6 (A) Venn diagram of MLL1 and MLL-AF4 direct targets as indicated. The MLL-AF4 direct targets were previously reported [2]. (B) ChIP assays for MLL1, WDR5 and H3K4me2 in Molm13 cells at selected gene loci as indicated on bottom. Signals for each experiment were normalized to 5% input. Means and standard deviations (as error bars) from at least three independent experiments were presented. Student *t*-test were performed for statistical analyses, * $p < 0.05$, ** $p < 0.01$.
