A

P. palmivora-treated log$_2$ normalized expression

Water-treated log$_2$ normalized expression

B

C. theobromicola-treated log$_2$ normalized expression

Water-treated log$_2$ normalized expression

Figure S2. Whole genome expression profiles in pathogen infected leaves. Scatterplots of log$_2$ normalized expression values for all probes on the microarray, comparing A) *Phytophthora palmivora* and water treatment and B) *Colletotrichum theobromicola* and water treatment.
