---

<sup>i</sup> The biggest lesion in cases with multiple lesions

<sup>ii</sup> Weeks elapsed between the end of treatment and the parasitic isolation.

<sup>iii</sup> Internal code assigned for the study.

<sup>iv</sup> Number of treatments received for this lesion with AM

<sup>v</sup> Treatments received for this lesion with drugs different from AM

<sup>vi</sup> Number of treatments received for previous LC. episodes

<sup>vii</sup> ML, multiple lesion located with different topology

<sup>viii</sup> NI, no information

<sup>ix</sup> UP, upper Limbs
