

Figure S5 RGF1 interacts with RGFR2^{LRR} in vitro.

(A) MALDI-TOF MS of the peak fraction RGF1-RGFR2^{LRR}. The RGFR2^{LRR} protein and peptide mixture containing RGF1 were incubated and subjected to gel-filtration. The peak fraction was assayed by MS. **(B)** Quantification of the binding affinity between RGF1 and RGFR2^{LRR} by MST.
