Figure S1. Minimum-spanning tree analysis of MLVA (multiple-locus variable-number tandem-repeats analysis) data of 54 *Salmonella* Typhimurium isolates from the Oriental Province, DRC, 2009-2014. Each circle displays a unique MLVA type, with different colours indicating the year of collection of isolates.

	5	2009
	4	2010
	6	2011
	13	2012
	14	2013
	12	2014
