Table S-9. Penetrance table for the model simulated in epiSIM.

		SNP A genotype		
		AA	Aa	aa
SNP B genotype	BB	b	b	b
	Bb	b	$b(1 + f)^2$	$b(1 + f)^3$
	bb	b	$b(1 + f)^3$	$b(1 + f)^4$

b: baseline penentrance. f: relative penetrance.
