

Supplementary figure 1A. These are full blots for the representative bands shown in figure 1A of the main manuscript.

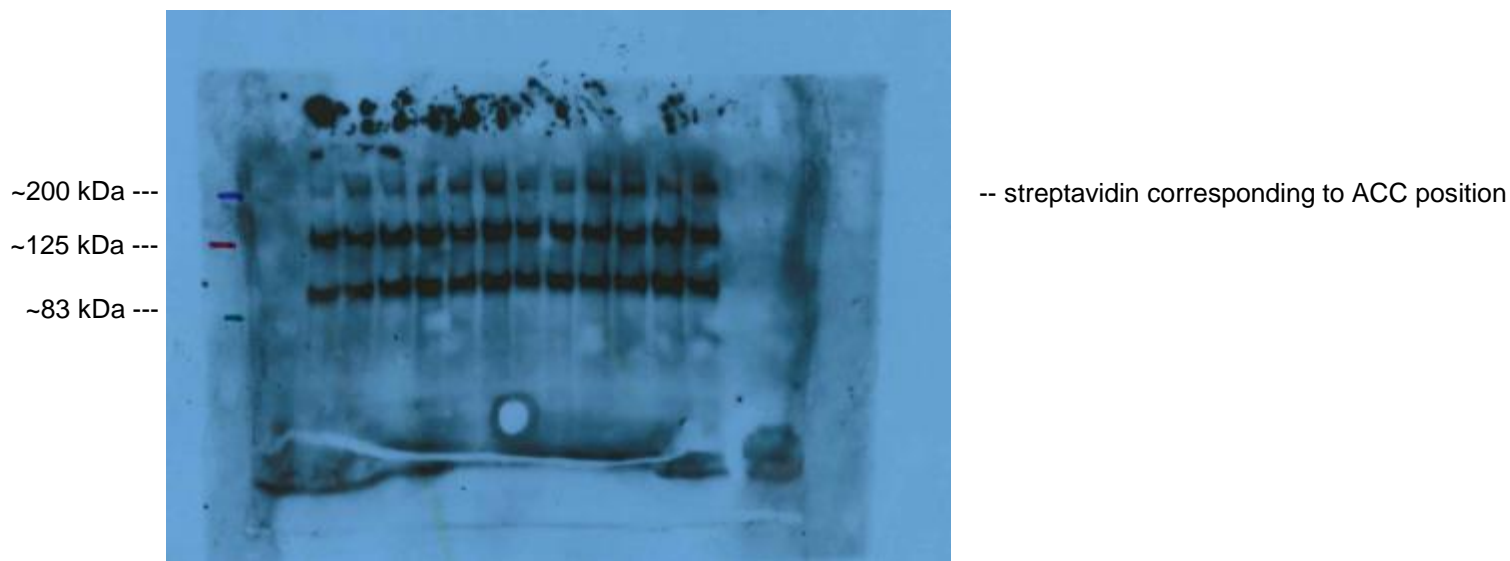

these representative lanes are shown in figure 1A

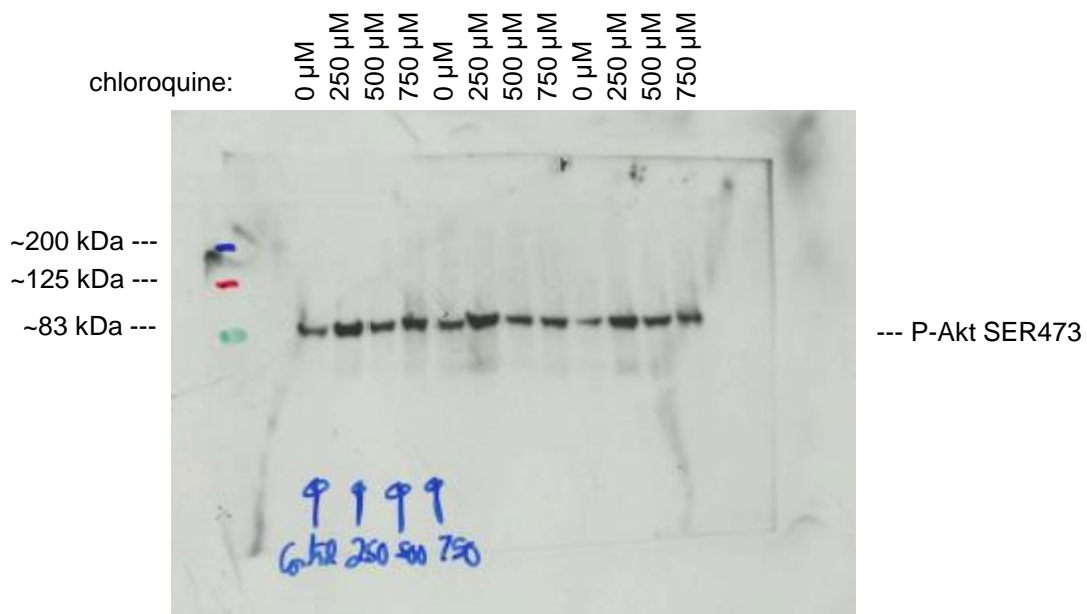

Supplementary figure 1B. These are full blots for the representative bands shown in figure 1B of the main manuscript.

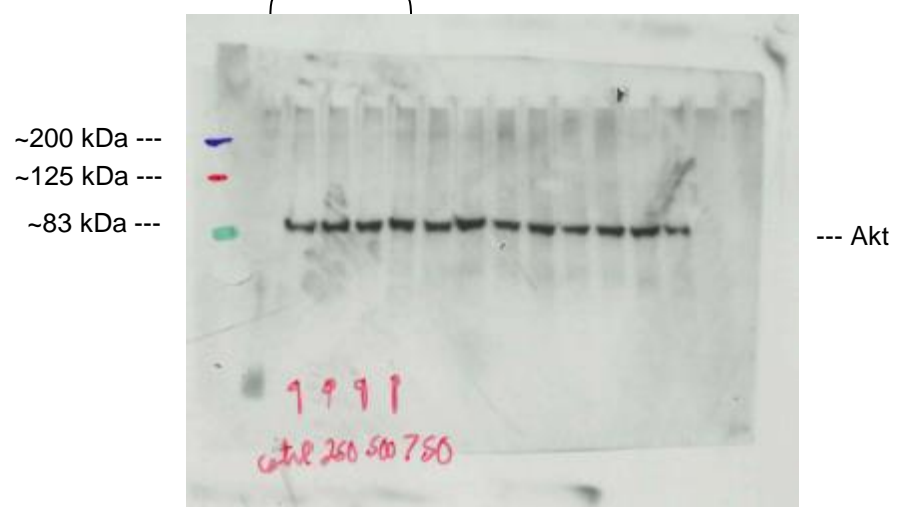

these representative lanes are shown in figure 1B

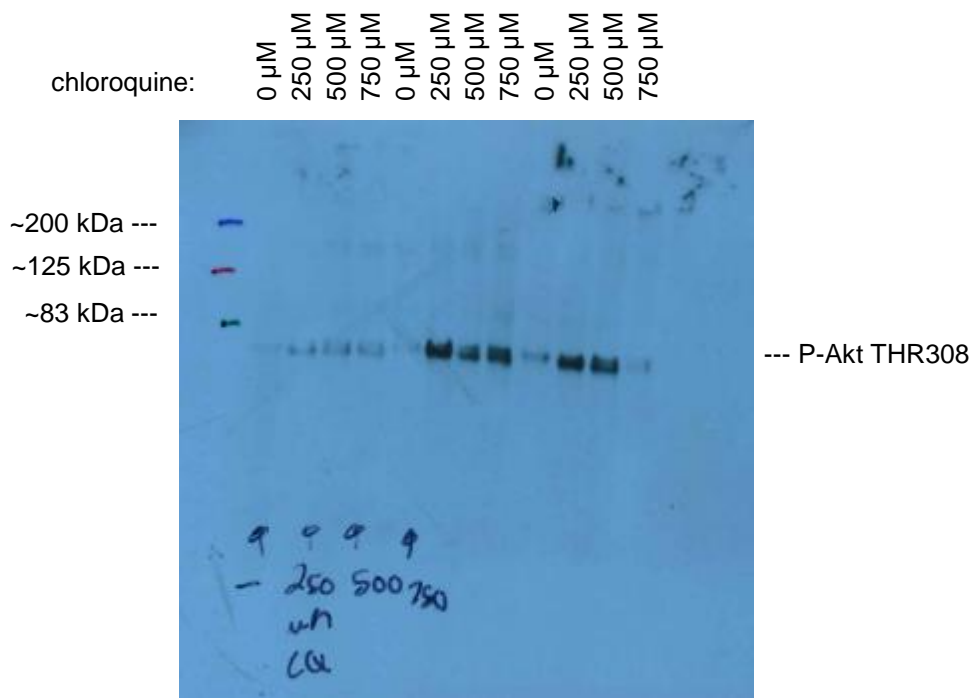

Supplementary figure 1C. These are full blots for the representative bands shown in figure 1C of the main manuscript.

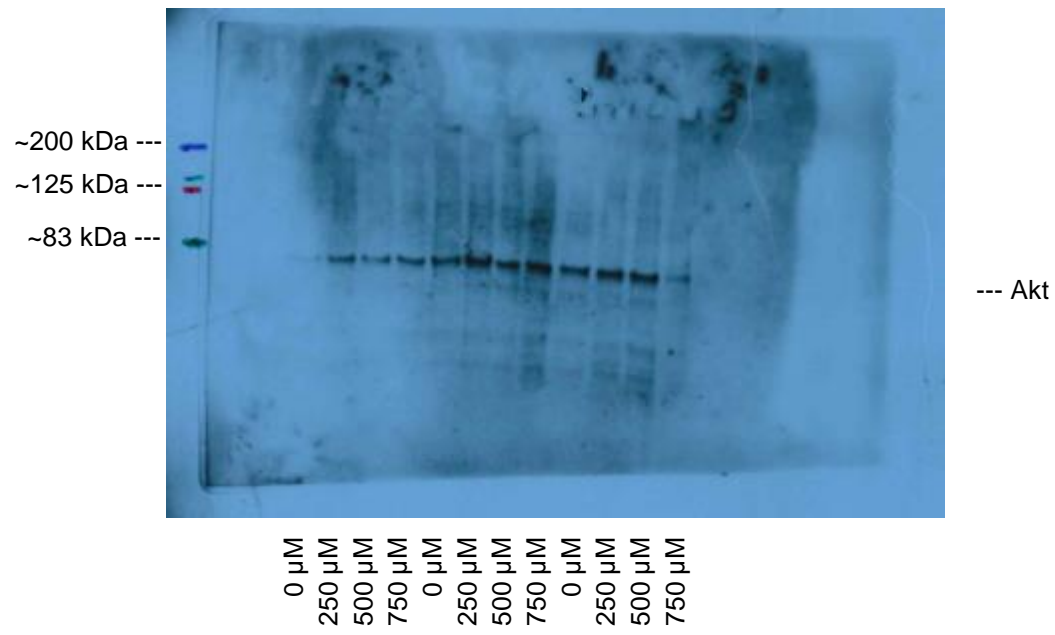

these representative lanes are shown in figure 1C

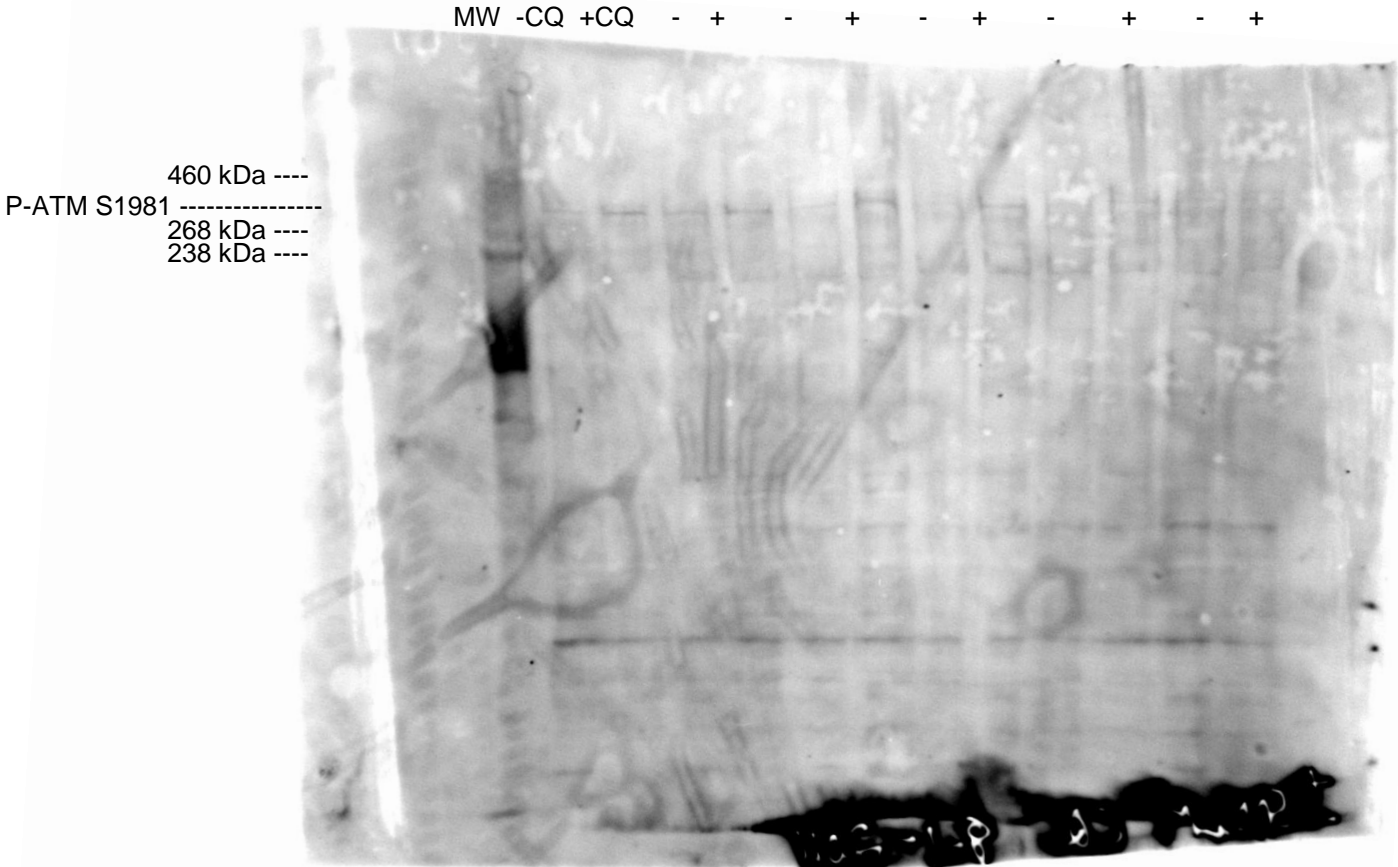

Supplementary figure 1D. These are full blots for the representative bands shown in figure 1D of the main manuscript.

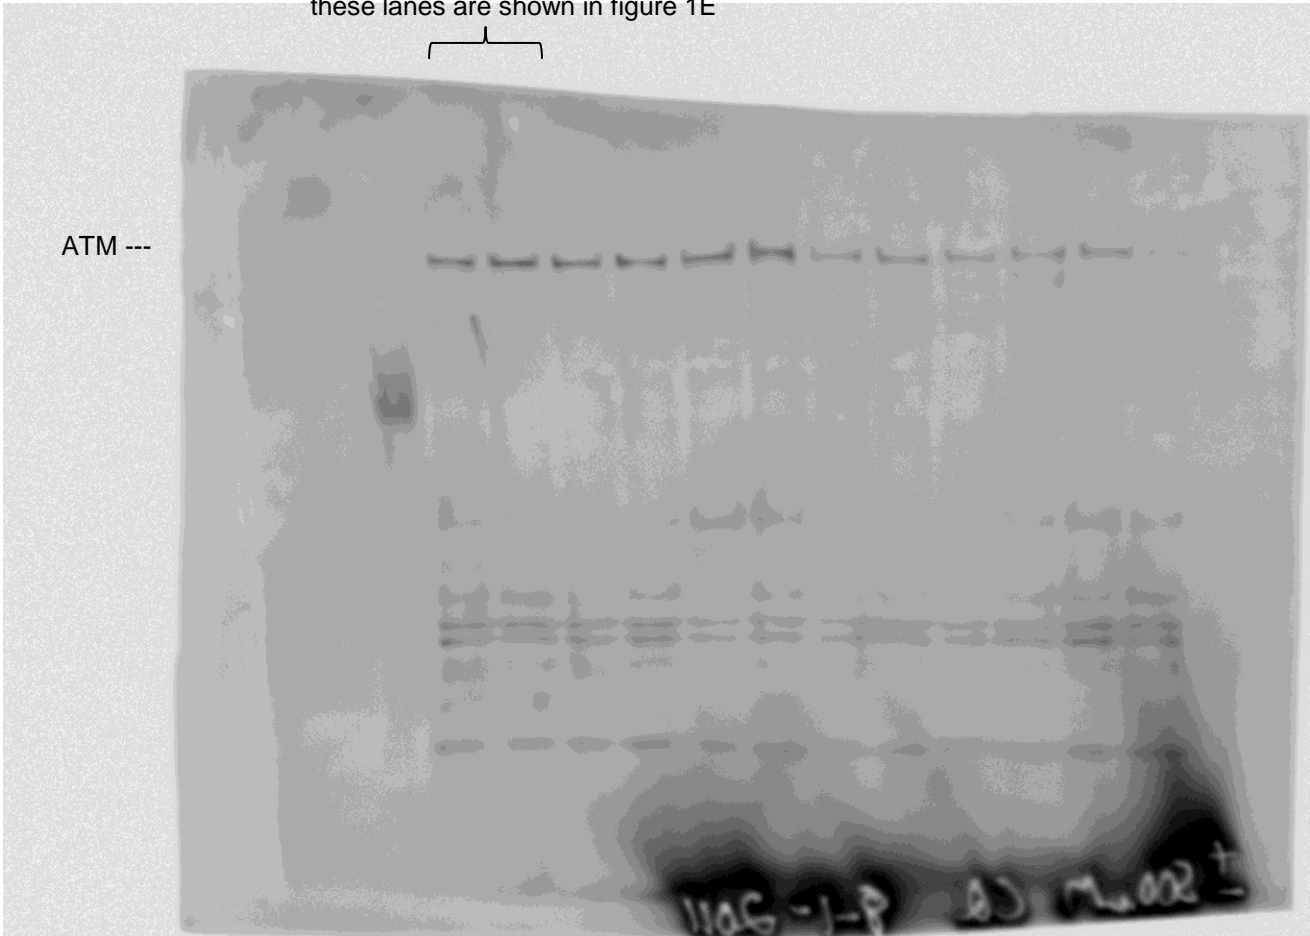

these lanes are shown in figure 1D

Supplementary figure 1E. These are full blots for the representative bands shown in figure 1E of the main manuscript.

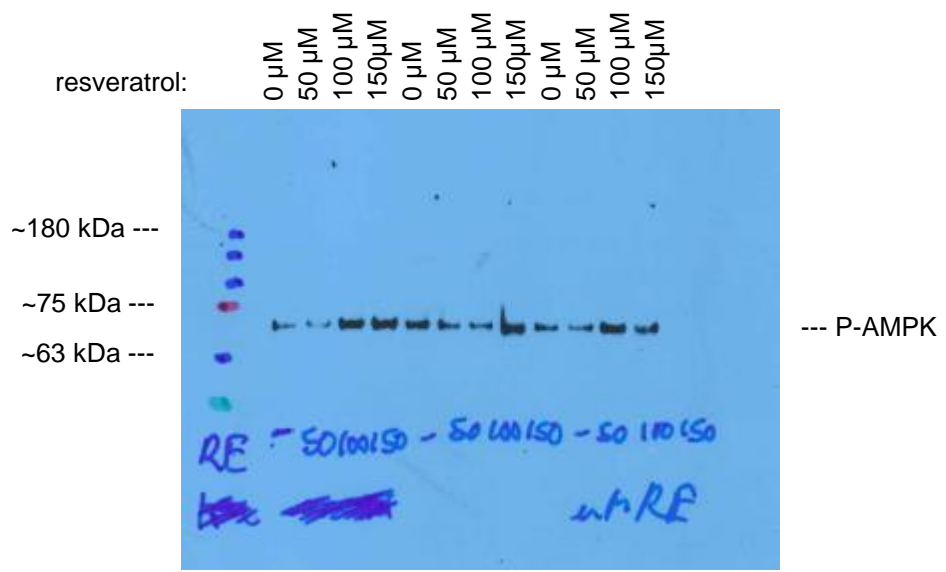

these lanes are shown in figure 1E

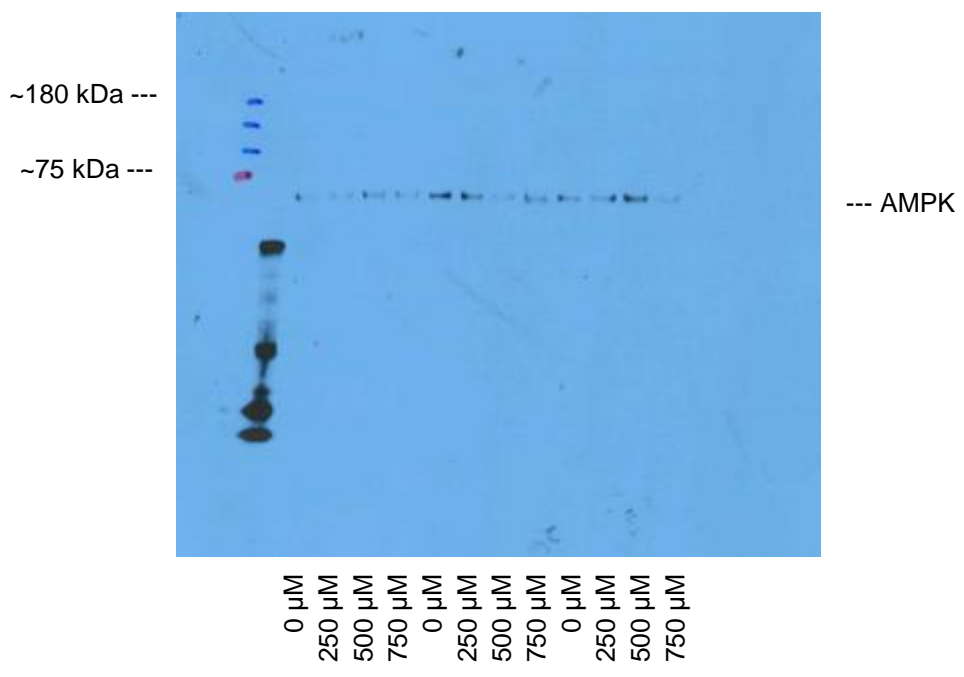

MW -CQ +CQ - + - + - + - +

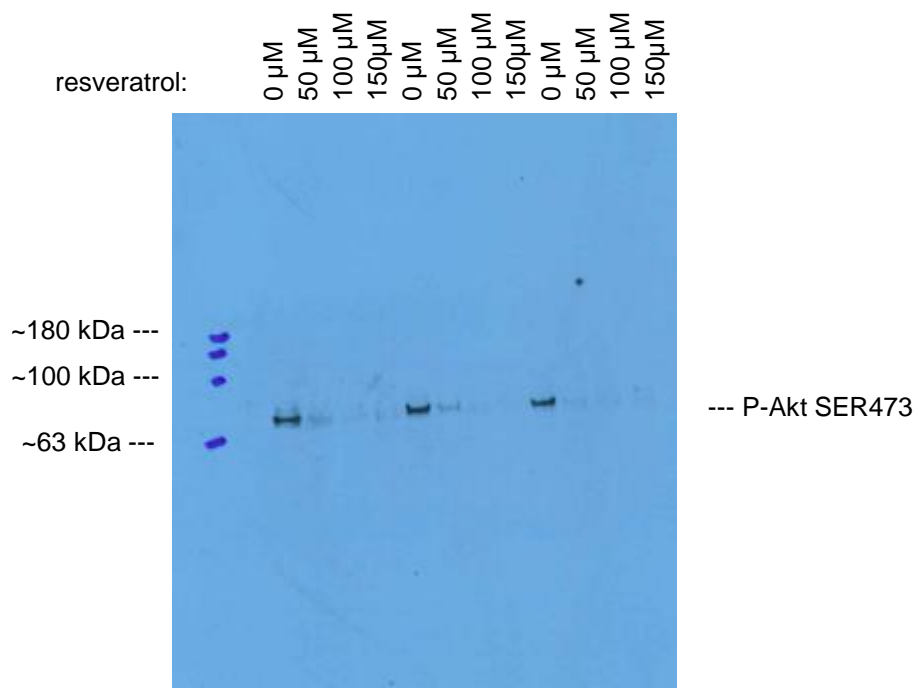

Supplementary figure 2A. These are full blots for the representative bands shown in figure 2A of the main manuscript.

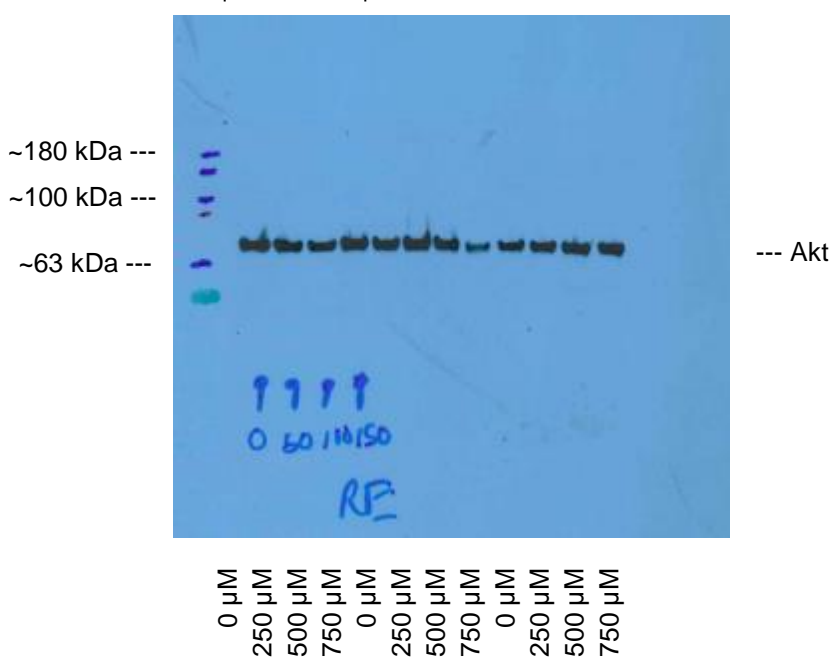

these representative lanes are shown in figure 2A

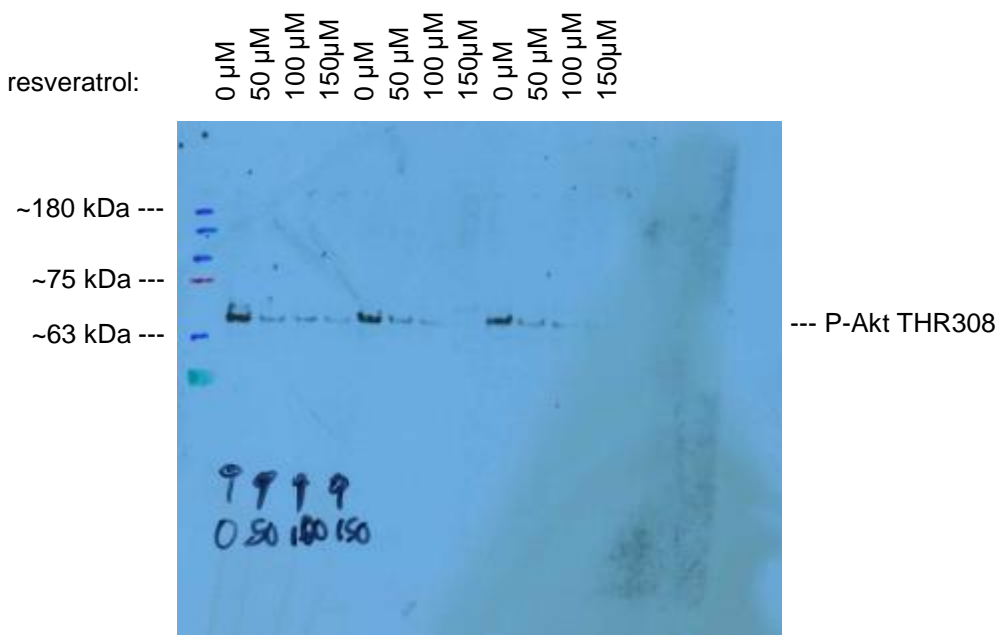

Supplementary figure 2B. These are full blots for the representative bands shown in figure 2B of the main manuscript.

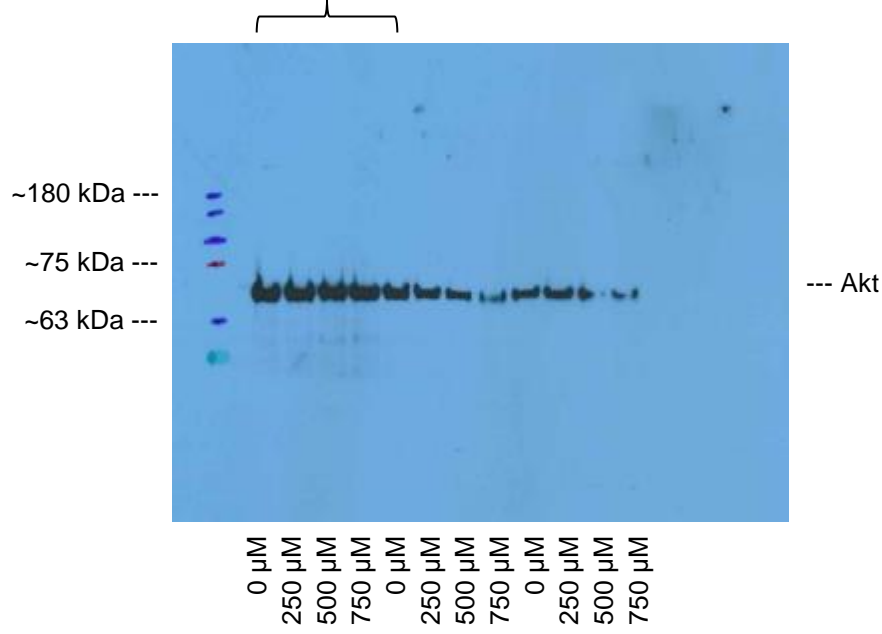

these representative lanes are shown in figure 2B

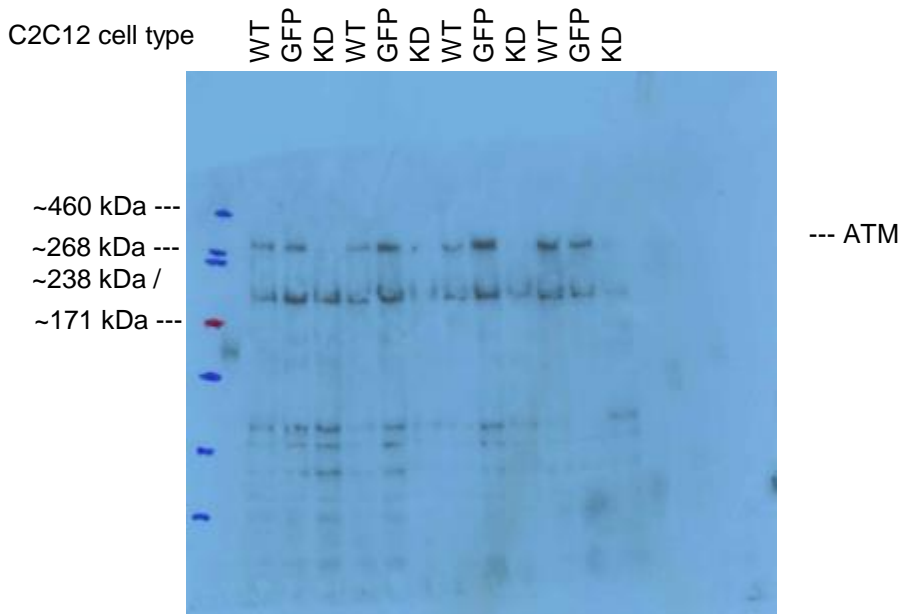

Supplementary figure 2C. These are full blots for the representative bands shown in figure 2C of the main manuscript.

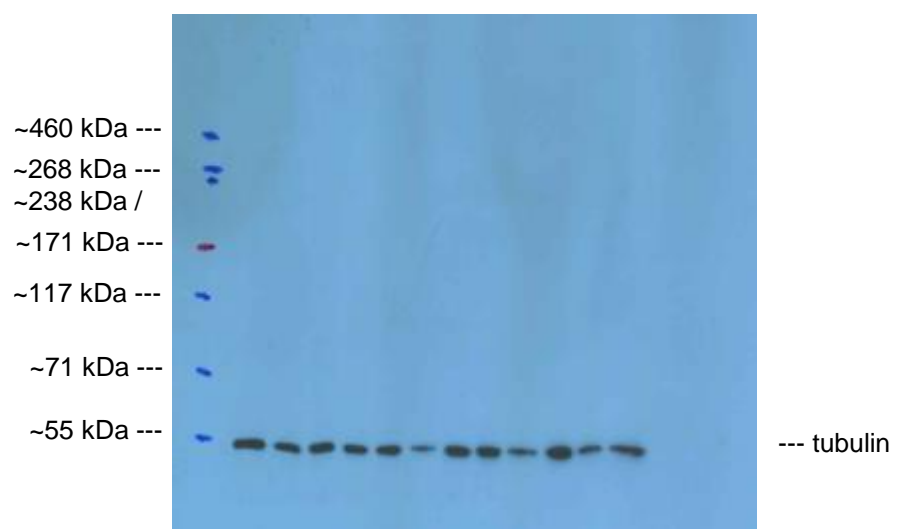

these representative lanes are shown in figure 2C

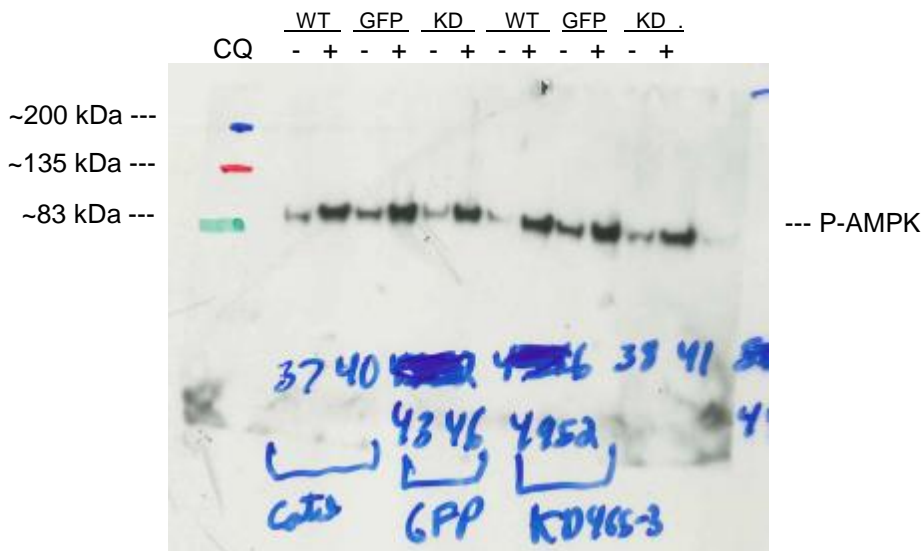

Supplementary figure 3A. These are full blots for the representative bands shown in figure 3A of the main manuscript.

these representative lanes are shown in figure 3A

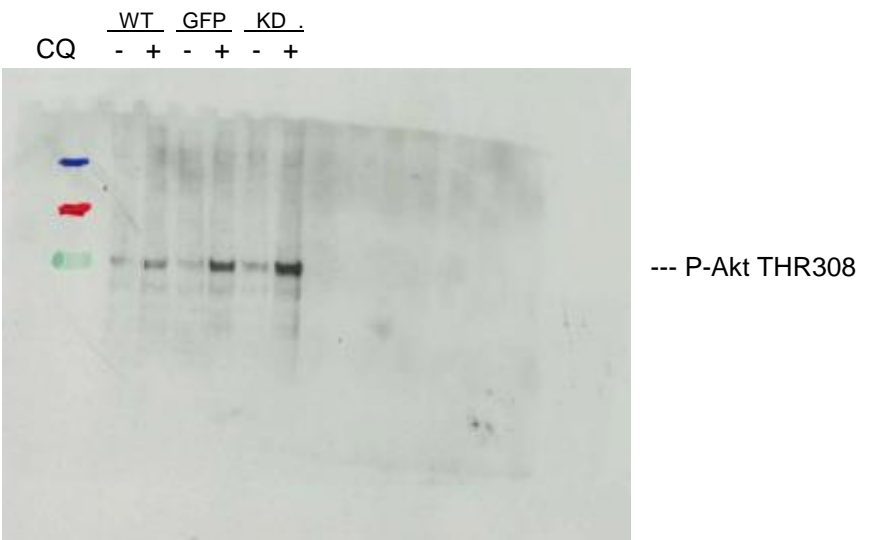

Supplementary figure 3B. These are full blots for the representative bands shown in figure 3B of the main manuscript.

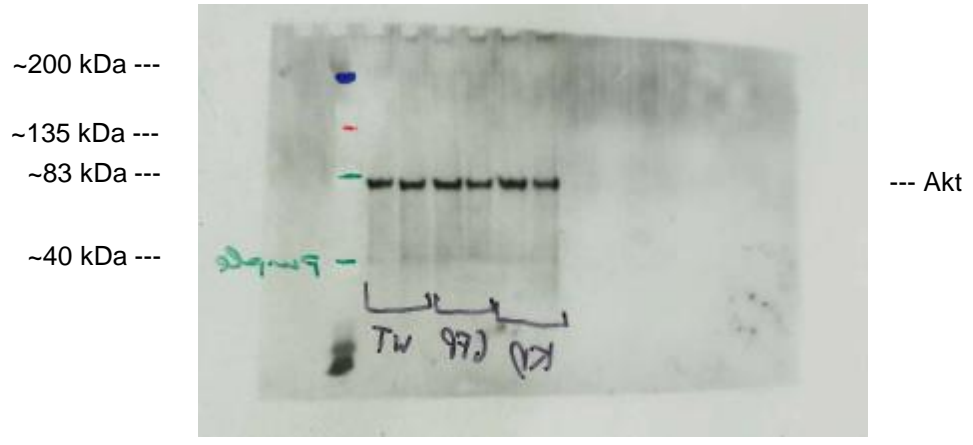

these representative lanes are shown in figure 3B

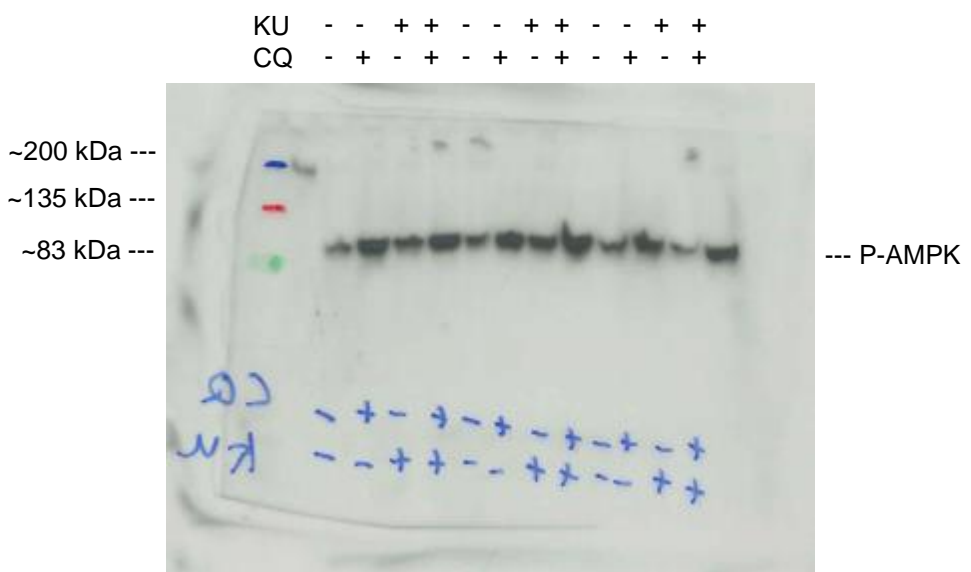

Supplementary figure 3C. These are full blots for the representative bands shown in figure 3C of the main manuscript.

these representative lanes are shown in figure 3C

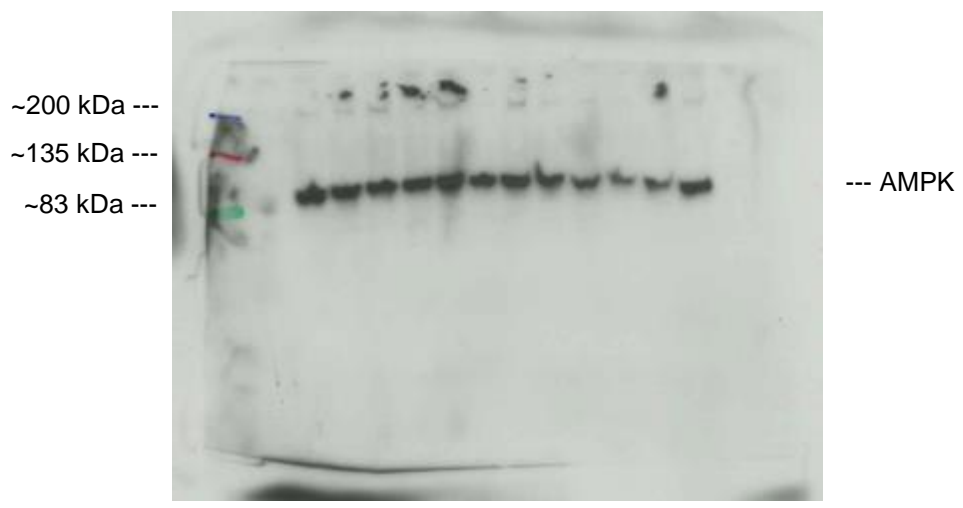

Supplementary figure 4A. These are full blots for the representative bands shown in figure 4A of the main manuscript.
