**Figure S3.** *est2Δ rad52-Y66A rad59Δ* **mutants are delayed in forming survivors.** The graph is the same as Figure 4C, except that the data are plotted in "Days" on the x-axis instead of "Population Doublings". In addition, the independent *est2Δ rad52-Y66A rad59Δ* replicates are plotted instead to highlight the delay/defect in survivor formation.
