

Supplementary Materials: Expression and Critical Role of Interleukin Enhancer Binding Factor 2 in Hepatocellular Carcinoma

Shaobing Cheng, Xu Jiang, Chaofeng Ding, Chengli Du, Kwabena Gyabaah Owusu-Ansah, Xiaoyu Weng, Wendi Hu, Chuanhui Peng, Zhen Lv, Rongliang Tong, Heng Xiao, Haiyang Xie, Lin Zhou, Jian Wu and Shusen Zheng

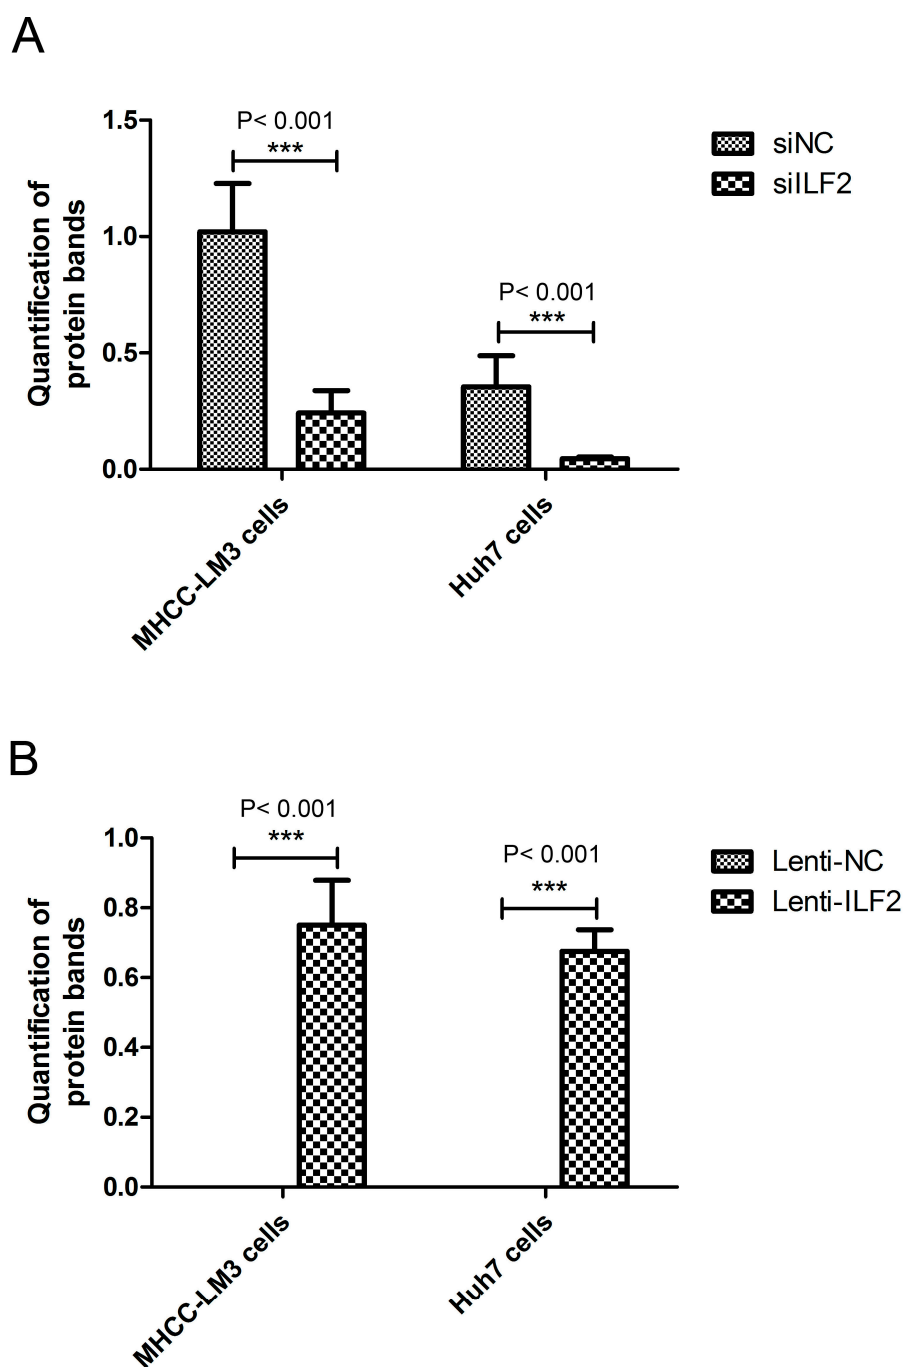

Figure S1. Detected Western blot ILF2 bands compared to β -actin. (A) Densitometric quantification of Western blot ILF2 protein bands in cancer cells transfected with siNC and siILF2 or (B) infected with Lenti-NC and Lenti-ILF2.

Figure S2. Expression of exogenous ILF2 in liver cancer cells validated and Flag-ILF2 detected by anti-Flag antibody in Lenti-ILF2 cells.

Figure S3. Western blot analysis showing high ILF2 expression in the Lenti-ILF2 group.
