

# Supplementary Figure 1

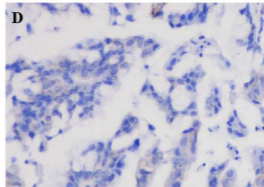

Non cancerous gallbladder mucosa

Well differentiated gallbladder adenocarcinoma

Poorly differentiated gallbladder cancer

Undifferentiated gallbladder cancer

## TISSUE ATLAS ? »

Gene description	Phosphoglycerate kinase 1
RNA tissue category	Expressed in all.
Protein class	Disease related genes, Enzymes, Plasma proteins, Potential drug targets, Predicted intracellular proteins
Predicted localization	Intracellular
Protein evidence	Evidence at protein level
Protein expression	Ubiquitous cytoplasmic and nuclear expression.
Data reliability description	Antibody staining mainly consistent with RNA expression data. Caution, targets protein from more than one gene.
Data reliability	Uncertain based on 2 antibodies.
