

TG/HDL-C	Sensitivity	Specificity
0.7	93%	7%
1.2	86%	39%
1.7	79%	70%
2.2	50%	79%
2.7	36%	89%

Supplementary Fig. 4. Receiver-operating characteristic curve of TG/HDL-C ratio to predict insulin resistance in healthy women with regular menstrual cycles. AUC, area under the receiver-operating characteristic curve; CI, confidence interval; TG, triglycerides; HDL-C, high-density lipoprotein cholesterol.
