Figure 2

Supplementary Figure legends

Supplementary Figure 1. STYK1 expression in LM3 and 97H HCC cell lines following treatment with shRNA-scramble (SCR) or shRNA-STYK1 (shSTYK1) confirmed reduced expression of STYK1 in cells treated with shSTYK1.

Supplementary Figure 2. STYK1 expression in BEL-7402 and SMMC-7721 HCC cells following transfection of either a control vector (Vector) or STYK1 vector (STYK1) confirmed increased levels of STYK1 in cells transfected with the STYK1 vector.
