

SUPPLEMENTARY FIGURE

Supplementary Figure S1: The phosphorylation of TOPK at T9 can not promote tumorigenesis *ex vivo*. JB6 cells stably expressing pcDNA3-Mock (JB6/ Mock), pcDNA3-TOPK-WT (JB6/ WT), pcDNA3-TOPK-9A (JB6/ 9A) were set up. Then transfectants of JB6/ mock and JB6/ 9A were compared for EGF-induced colony formation in soft agar.
