

QUESTIONNAIRE on:

“*Echinococcus multilocularis* infection in animals”

Introduction to the questionnaire

Dear Colleague,

the European Food Safety Authority (EFSA) is funding a EU project on “*Echinococcus multilocularis* infection in animals” in order to revise the **EU regulation No 1152/2011** in light of scientific developments.

In order to be able to provide a comprehensive and quantitative assessment of EM infections in animals, it is important to identify and collect data on all relevant aspects on the epidemiology and risk factors for the prevention and control of this disease. This inventory should also include data available from **Member States** that would be of relevance for **systematic reviews** approach of literature and data.

In order to support EFSA in this project we would be glad to ask you to provide the information required in the following questionnaire.

You can send back this **Questionnaire** by email, fax or ordinary mail at the following address:

Dr. Adriano Casulli

A1: DATA ON COMPILER

1. First name and Surname:
2. Position:
2. Affiliation (Institution and address):
3. Contacts (e-mail, telephone, fax):

A2: OTHER SUBJECTS (institutions or persons)

If you are aware of other persons that could contribute to the provision of the information requested, please fill in this section in order to give us the opportunity to contact them (replicate this information for any of the subject that you include here).

1. First name and Surname:
2. Position:
3. Affiliation (Institution and address):
4. Contacts (e-mail, telephone, fax):

B1: INFORMATION SOURCES

Are information on *Echinococcus multilocularis*/ Alveolar echinococcosis in any of these sources available? (specify if in English or in national language)

B1.1 Proceedings of National meetings: No Yes (specify title/s)

B1.2 Reports from University and National Institutes (Veterinary or Medical): No Yes
(specify title/s)

B1.3 Master and PhD thesis: No Yes (specify title/s)

B1.4 Reports on National/Regional projects: No Yes (specify title/s)

B1.5 Articles published in National Journals: No Yes (specify title/s)

B1.6 Reports on surveillance, monitoring, diagnostic and control activities on wild and domestic animals and humans: No Yes (if Yes, please specify in box **B2**)

B2: ADDITIONAL INFORMATION SOURCES

**Surveillance, monitoring, diagnostic and control activities on *Echinococcus multilocularis*/
Alveolar echinococcosis.**

2.1 Monitoring: No Yes (if yes please specify)

Data available from (year): _____ to _____

Species involved (humans, foxes, dogs, rodents, others): _____

Institutions involved: _____

2.2 Surveillance: No Yes (if yes please specify)

Data available from (year): _____ to _____

Species involved (humans, foxes, dogs, rodents, others): _____

Institutions involved: _____

2.3 Diagnosis: No Yes (if yes please specify)

Data available from (year): _____ to _____

Species involved (humans, foxes, dogs, rodents, others): _____

Institutions involved: _____

2.4 Control: No Yes (if yes please specify)

Data available from (year): _____ to _____

Species involved (humans, foxes, dogs, rodents, others): _____

Institutions involved: _____

2.5 Other: No Yes (if yes please specify)

Data available from (year): _____ to _____

Species involved (humans, foxes, dogs, rodents, others): _____

Institutions involved: _____

B3: DATA SHARING WITH EFSA

Is there the possibility to share data or provide the access to databases on *Echinococcus multilocularis*/ Alveolar echinococcosis in any of these forms?

B3.1 Aggregated form (summary data, tables, reports): No Yes (specify)

B3.2 Punctual data (single records, databases): No Yes (specify)

COMMENTS OR ADDITIONAL INFORMATION

Please provide any other comment or information about the availability of data on *Echinococcus multilocularis*/ Alveolar echinococcosis in your country)
