

Graphlet Based Metrics for the Comparison of Gene Regulatory Networks:

Fig S5: Merged sub-network of the Transcription Factors (TFs) whose REC graphlet degree (RGD) varies the most using suspension network at 15 hours as reference.

Alberto J.M. Martin, Calixto Dominguez, Sebastián Contreras-Riquelme, David S. Holmes and Tomas Perez-Acle

Merged sub-network of the TFs whose RGD varies the most using suspension network at 15 hours as reference. Only FP and FN edges are shown. Color codes are the same as in Figs 4 and 5 in the main text.
