Study of the degradation of a multidrug transporter using a non-radioactive pulse chase method

Qian Chai, Stacy R. Webb, Zhaoshuai Wang, Rebecca E. Dutch, Yanan Wei

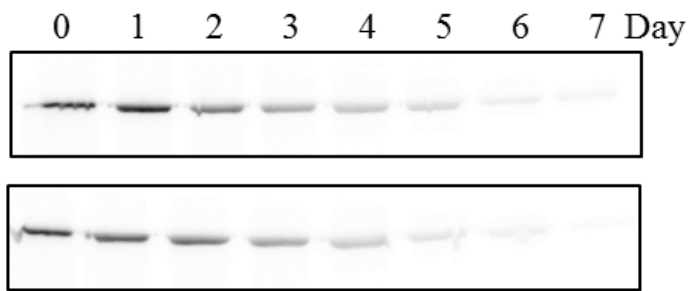

Fig. S1 Results from two additional repeats of the S35-Met pulse chase experiment result (see Fig. 2)

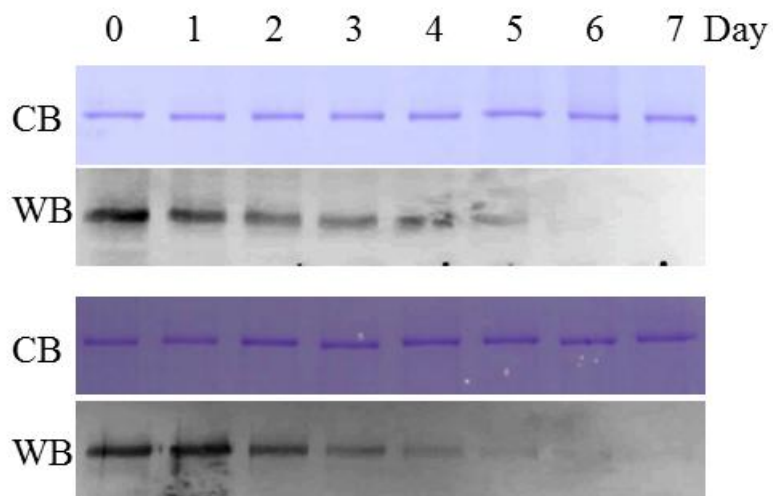

Fig. S2 Results from two additional repeats of the AcrB degradation experiments detected using the AHA labeling method (see Fig. 3)

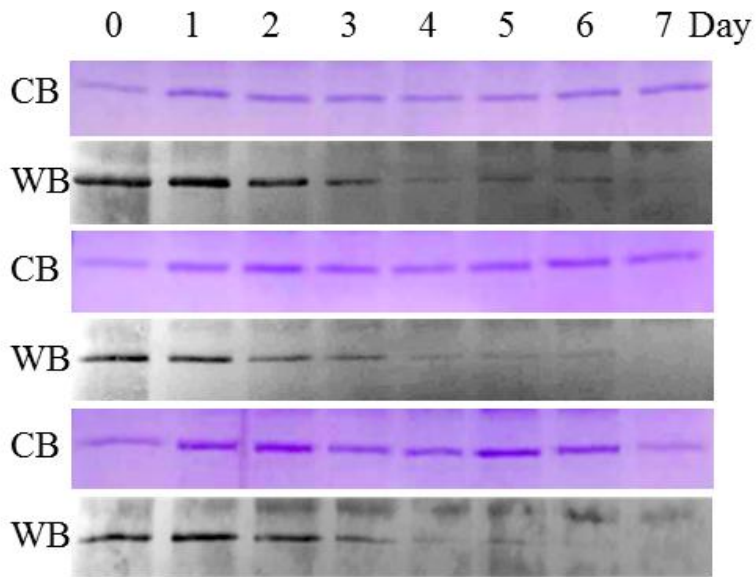

Fig. S3 Results from three repeats of the AcrA degradation experiments detected using the AHA labeling method (see Fig. 5)
