

Supplementary Figure S1

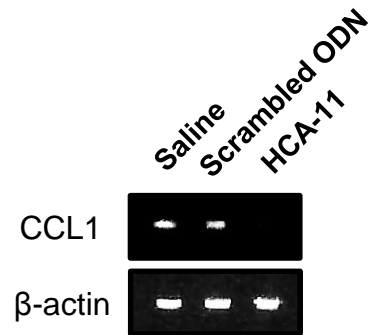

Fig. S1. CCL1 mRNA expression in CCL1⁺CD163⁺CD14⁺ cells treated with HCA-11. CCL1 mRNA, derived from IL-1 β /IgG-CCL1⁺CD163⁺CD14⁺ cells (3×10^5 cells/ml) cultured with 100 μ g/ml of HCA-11 for 2 days, were assayed by RT-PCR.
