

Supplemental Table 1. Details of peptides identified by MS in membrane (A) and cytosol (B) fractions. In the membrane fraction peptides from adult reticulocytes were labelled with TMT⁶-129, adult RBCs TMT⁶-128, cord reticulocytes TMT⁶-127, cord RBCs TMT⁶-126, additional cord reticulocyte sample TMT⁶-131, additional cord RBC sample TMT⁶-130. In the cytosol fraction peptides from adult reticulocytes were labelled with TMT⁶-127, adult RBCs TMT⁶-129, cord reticulocytes TMT⁶-126, cord RBCs TMT⁶-131, additional cord reticulocyte sample TMT⁶-128, additional cord RBC sample TMT⁶-130.
